

Best Project Management Software and Tools

1. Scoro

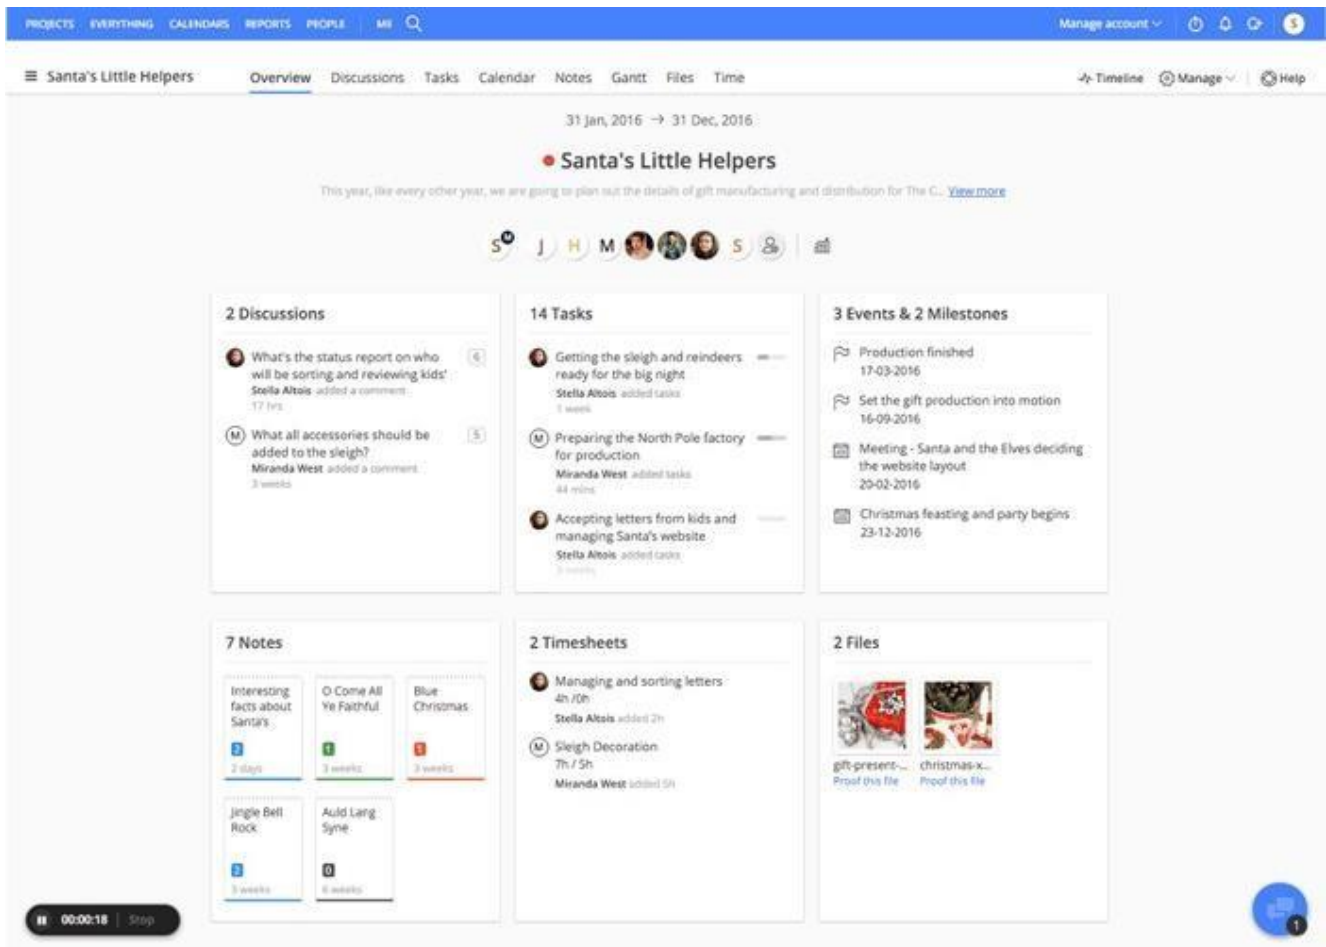

Scoro is a comprehensive solution that combines all the features you might need in project management software: projects & tasks, contact management, quotes, team collaboration, billing, and reporting.

Top features:

- Projects with sub-tasks and deadlines
- Real-time KPI dashboard
- Shared team calendar & meeting scheduling
- Contact management
- Time tracking and billing for work
- Detailed reports on project progress and finances
- Quoting and invoicing with pre-set templates

What's special about this tool: **Scoro** helps to streamline your entire work progress, so you don't need to use a lot of different tools for every task. All your important information is stored in one central place. **Pricing:** From \$26 user/month

2. ProofHub

ProofHub offers a replacement for conventional emailing and a bunch of other tools, integrating multiple project management features under one roof.

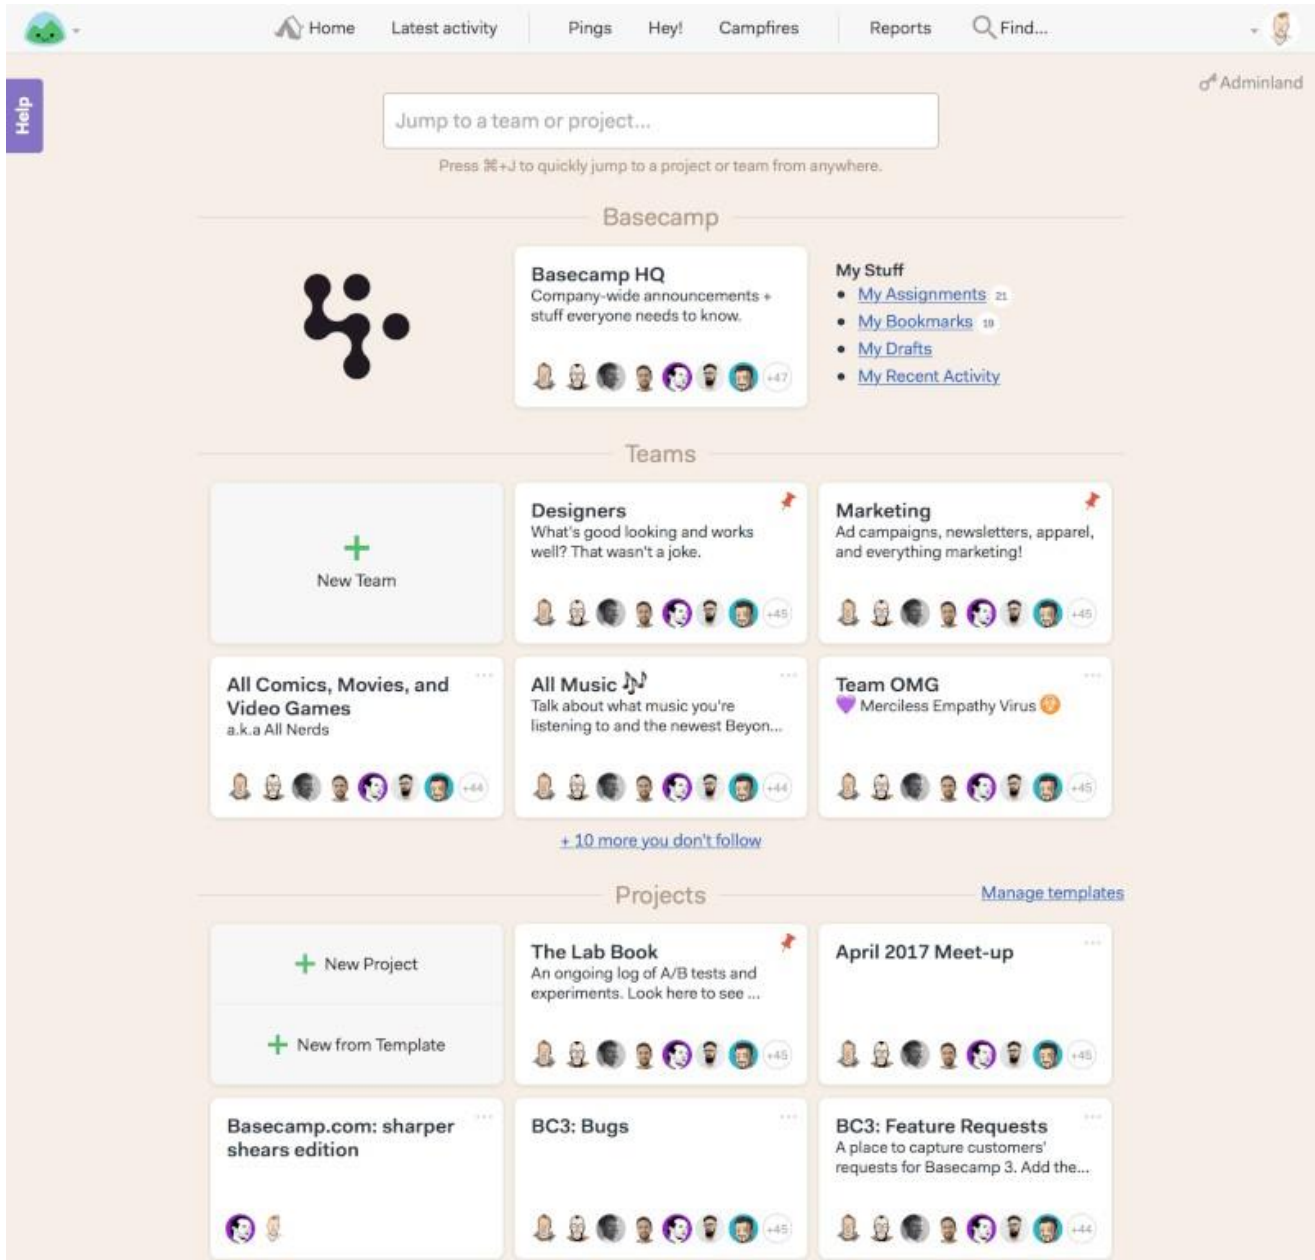

Top features:

- Assigned user roles
- Online team discussions and chats
- Task delegating and assignments
- Reporting and tracking project history
- Secure file storage

What's special about this tool: ProofHub has a simple and well-designed user interface that helps the team to collaborate more efficiently.

Pricing: From \$20/month (up to 10 projects) to \$150/month (unlimited projects)

3. Basecamp

Basecamp is the preferred tool for thousands of project management teams, who enjoy its modern social media-like interface and carefree team collaboration features.

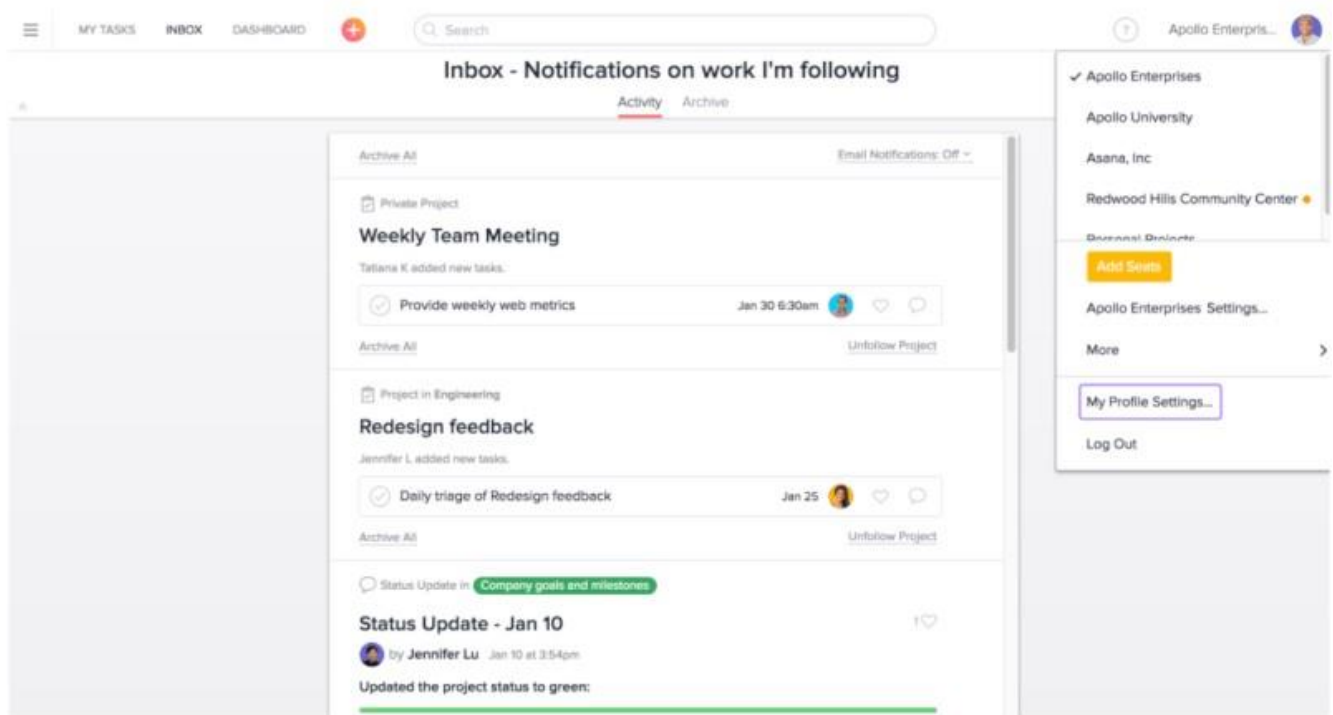

Top features:

- Projects to manage multiple users' work
- Message boards for discussing new projects or ideas
- In-app collaboration with team
- Reporting on project performance
- Separate dashboard for showing to clients
- Email and desktop notifications

What's special about this tool: Basecamp is free for teachers and students!

Price: \$99/month for unlimited users

4. Asana

Asana combines elements of project management, file storage, and collaboration and helps to manage projects across a team without email.

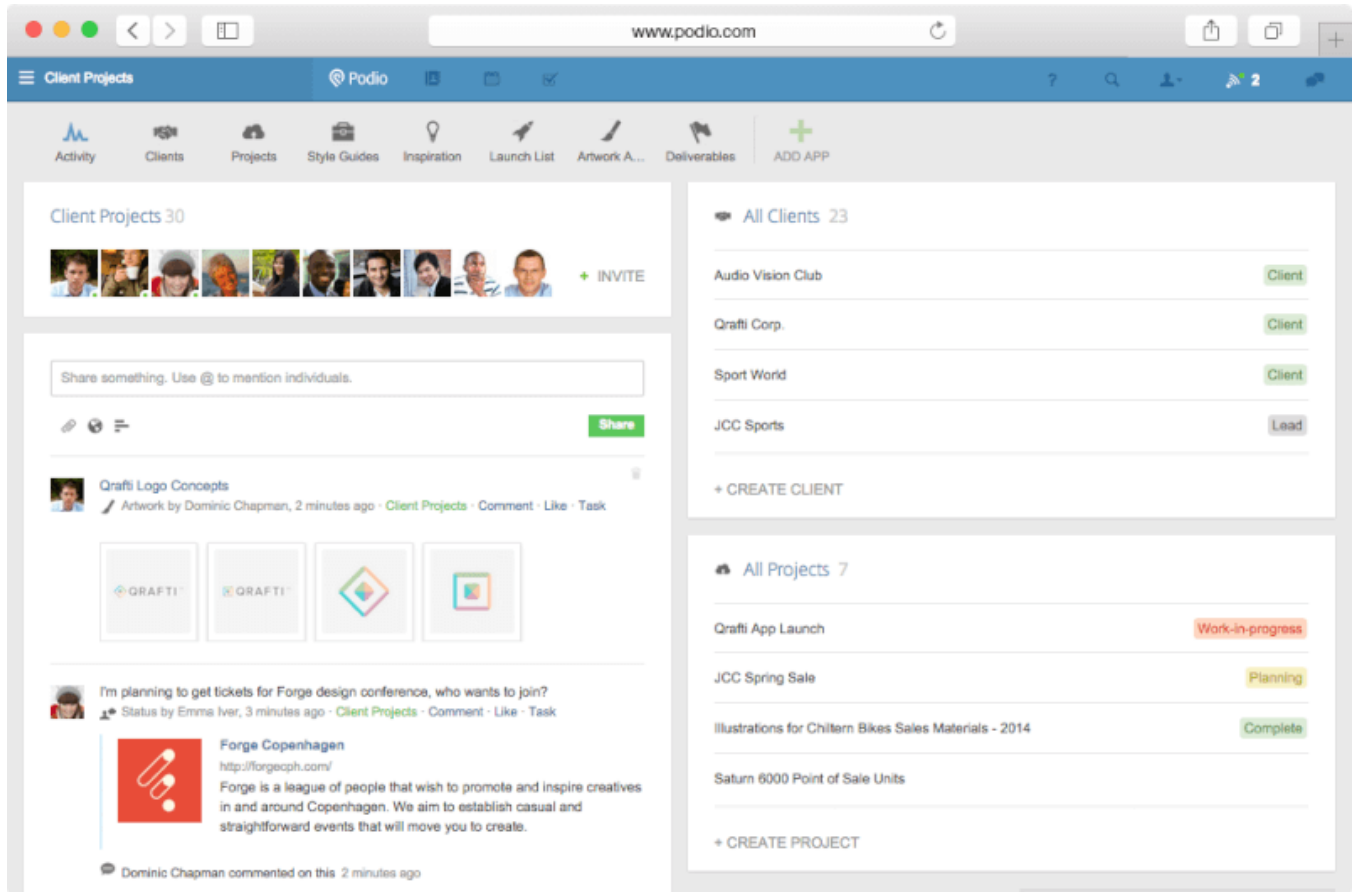

Top features:

- Break your work down into tasks, and assign it to team members
- Organize your tasks into projects for roadmaps and timelines
- Review milestones, and check on your team's progress
- Get notified about projects updates
- Use project dashboards to get a quick overview

What's special about this tool: Asana is a really easy-to-use tool with a simplistic layout. If you're a small team with not too complex projects, check it out.

Pricing: Free for up to 15 members, Premium from \$8.33 user/month

5. Podio

Podio is a flexible and highly customizable online hub for work and team communication.

Top features:

- Assign tasks, attach files and discuss details within the solution
- Share encrypted & large files
- Automate the sales pipelines, project budget tracking, and more
- Get an overview of the company with visual dashboards
- Automate your workflows

What's special about this tool: Podio's workflows feature enables you to add if-then logic to Podio apps. For example, instruct your app to create a task or comment, when an item is created or when a particular update is made to an item.

Pricing: From 24\$ month/user for full suite of features

6. Workzone

Workzone was built by experienced ad execs who wanted to help agencies and creative teams get visibility into all of their work.

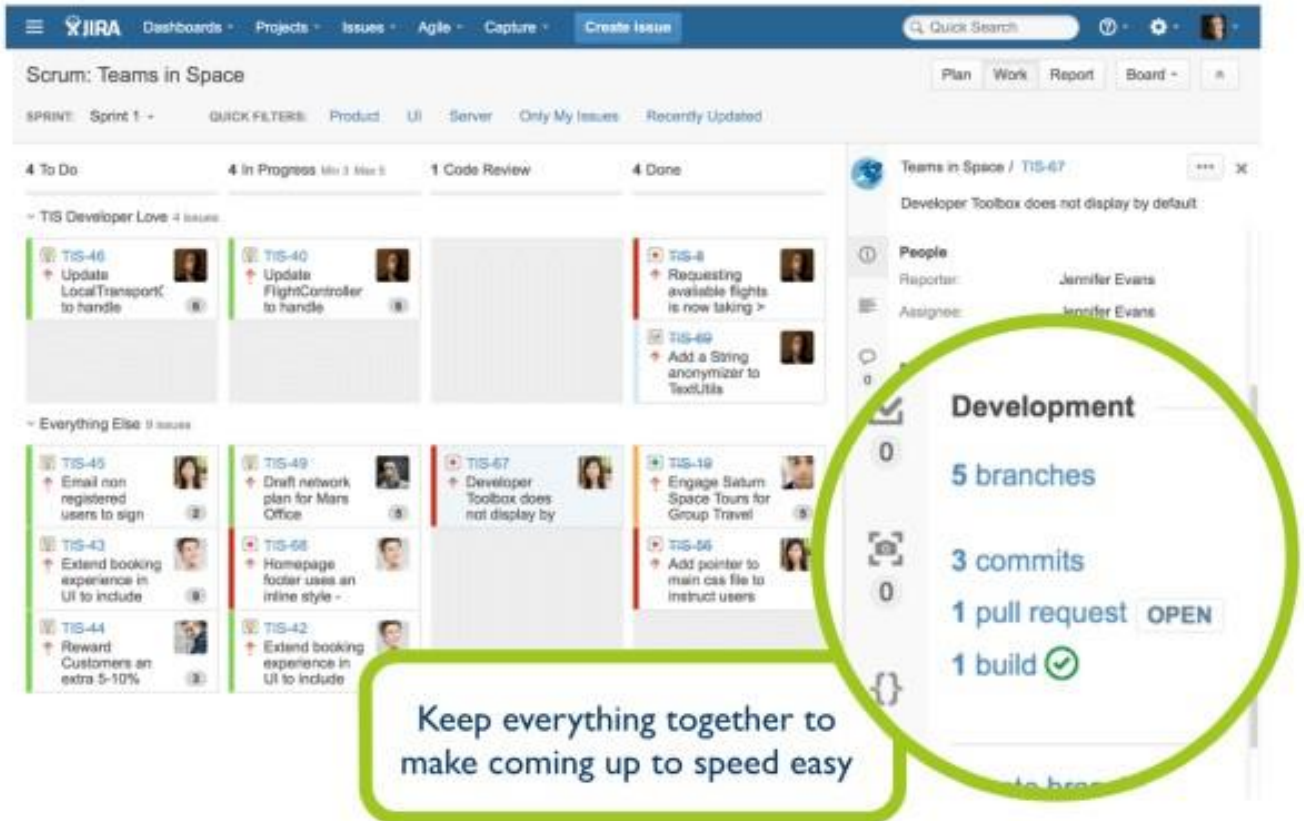

Top features:

- Personalized, individual to-do lists
- Create subtasks and task dependencies
- Set permissions for certain users (including clients) to access projects, tasks and files
- Quickly see statuses with Gantt charts
- Assign people to more than one task

What's special about this tool: Workzone has a lot of powerful features but is simpler to use than more complex tools. Workzone is meant for the whole team to use.

Pricing: \$24-\$44 per month

7. JIRA

JIRA is a cross-platform issue and bug tracking software with advanced project management capabilities and features.

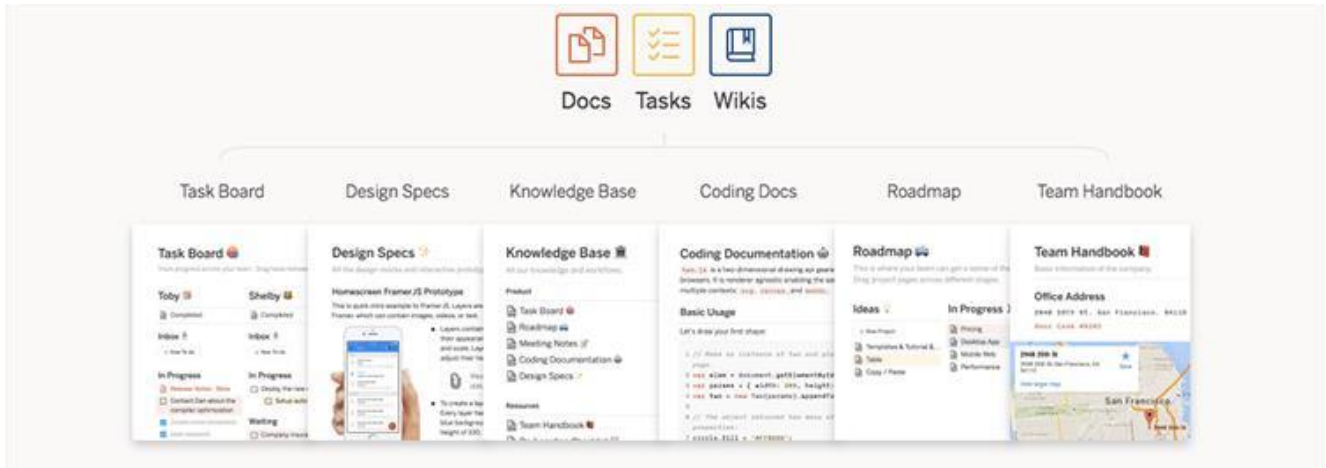

Top features:

- Create user stories and issues, plan sprints □ Distribute tasks across your software team.
- Prioritize and discuss your team's work
- Centralize your team communication
- See real-time reporting on your team's work

What's special about this tool: JIRA is designed for software development teams, making it the perfect IT project management tool.

Pricing: Starting from \$10/month (up to 10 users), \$75/month for 15 users, \$300/month for 50 users.

8. Notion

Notion will give you a completely different take on project management. It helps to plan and discuss projects, share everything with the team, and keep track of all the ideas.

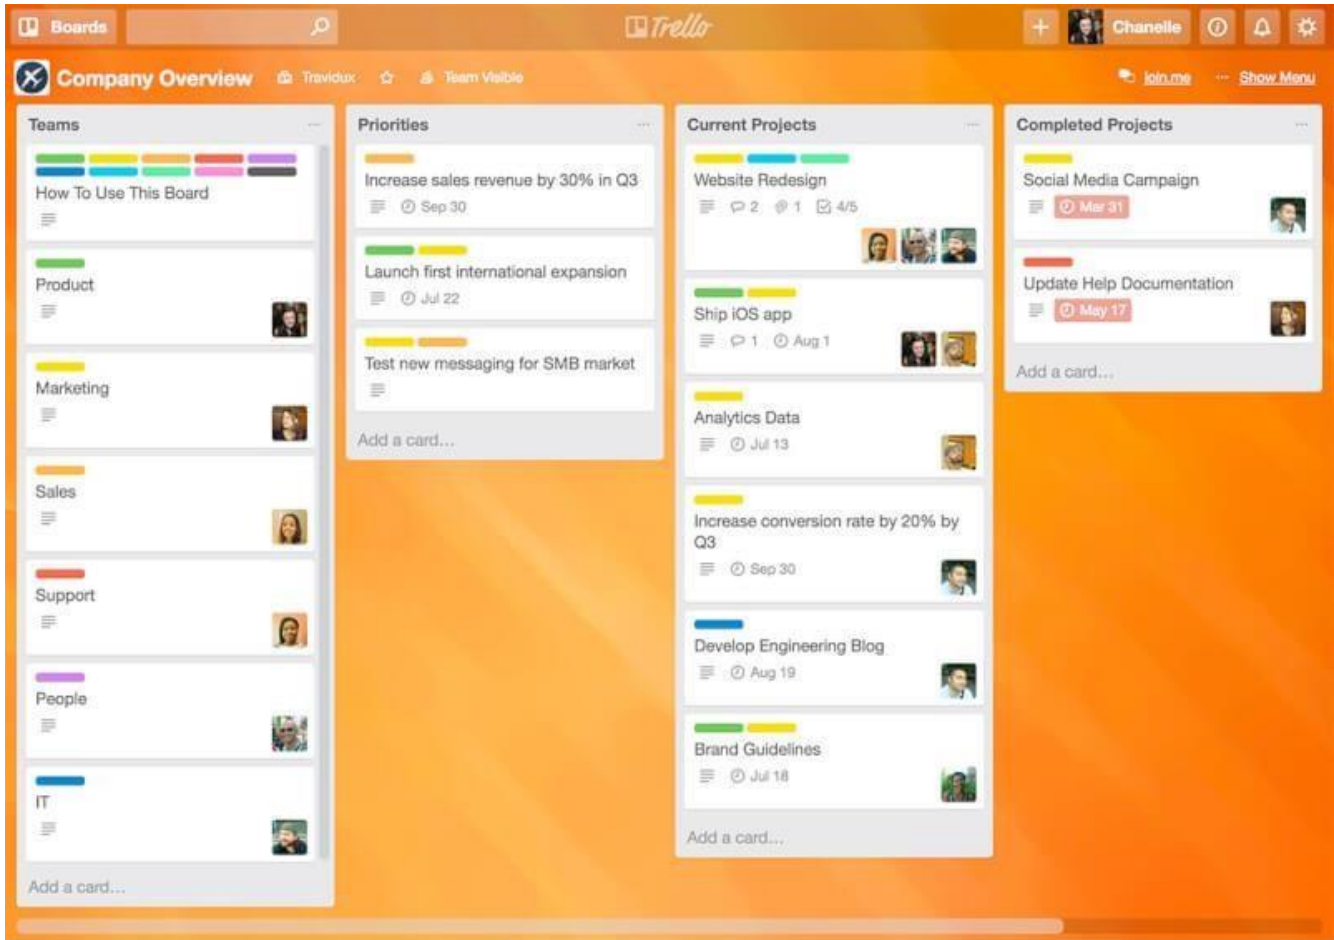

Top features:

- Keep a personal weekly checklist
- Take notes
- Build a task board with flexible drag and drop editor
- Share files
- Nest pages inside each other – like an infinite knowledge base

What's special about this tool: “Notion is like the LEGO set for collaboration software (or Minecraft, if you are from a younger generation). It lets you assemble workflows that work best for your team, as easy as using a text editor.” – Ivan Zhao, Co-founder of Notion

Pricing: \$8 user/month

9. Trello

Trello is known for visualizing project tasks on a cardboard-like dashboard that's great for managing short and quick everyday assignments.

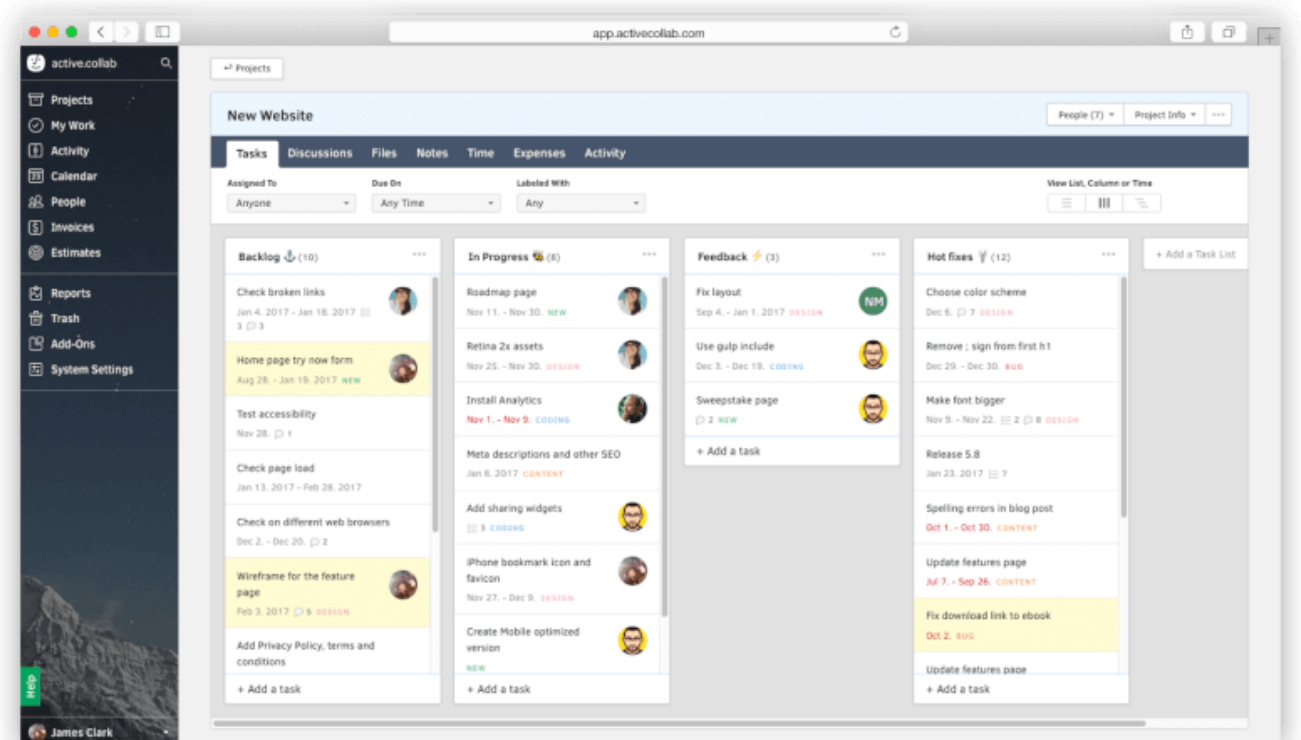

Top features:

- Simple task management on a cardboard
- Creating unlimited task lists
- Image and file sharing
- Organizing lists by dates or priority
- Commenting and collaboration

What's special about this tool: From startups to Fortune 500 companies, Trello is the most visual way for teams to collaborate on any project.

Pricing: Free for personal use, \$9.99 user/month for businesses

10.Active Collab

Active Collab helps your team stay organized while you outgrow email.

Top features:

- Time tracking and invoicing
- Gantt-like timeline for planning
- Kanban cards
- Creating tasks with multiple users and deadlines
- A shared team calendar for collaboration

What's interesting about this tool: Active Collab is especially great for collaboration, with functions like collaborative text editing and @mentions for communication.

Pricing: From \$25/month for cloud version, from \$499 for the self-hosted version

11.Redmine

The screenshot shows the Redmine web interface. At the top, there's a navigation bar with links: Home, My page, Projects, Administration, Help. On the right, it says 'Logged as admin - My account Sign out'. Below this is a search bar and a 'Jump to a project...' dropdown. The main header has tabs: Overview, Activity, Roadmap, Issues, News, Documents, Wiki, Files, Repository, Settings. The 'Issues' tab is selected. On the left, there's a 'Filters' section with a checkbox for 'Status' and a dropdown set to 'open'. Below this is a table of issues. The table has columns: #, Tracker, Status, Priority, Subject, Assigned to, and Updated. A context menu is open over issue #79, showing options: Edit, Status, Priority, Assigned to, Copy, Move, and Delete. The 'Priority' dropdown is further open, showing options: Immediate, Urgent, High, Normal, and Low (which is selected). On the right side, there's a 'New issue' section with a 'Tracker:' dropdown. Below that are links for 'View all issues', 'Summary', and 'Change log'. Further down is a 'Custom queries' section with links for 'Assigned to me', 'Due this week', and 'Late features'.

#	Tracker	Status	Priority	Subject	Assigned to	Updated

57	Feature	New	Low	MacOS X SVCD support	Dave Loper	12/17/2007 06:58 PM
51	Bug	New	Low	Better Mozilla plugin control		12/17/2007 06:58 PM

Redmine is an open source project management tool, made highly flexible by its volunteer community.

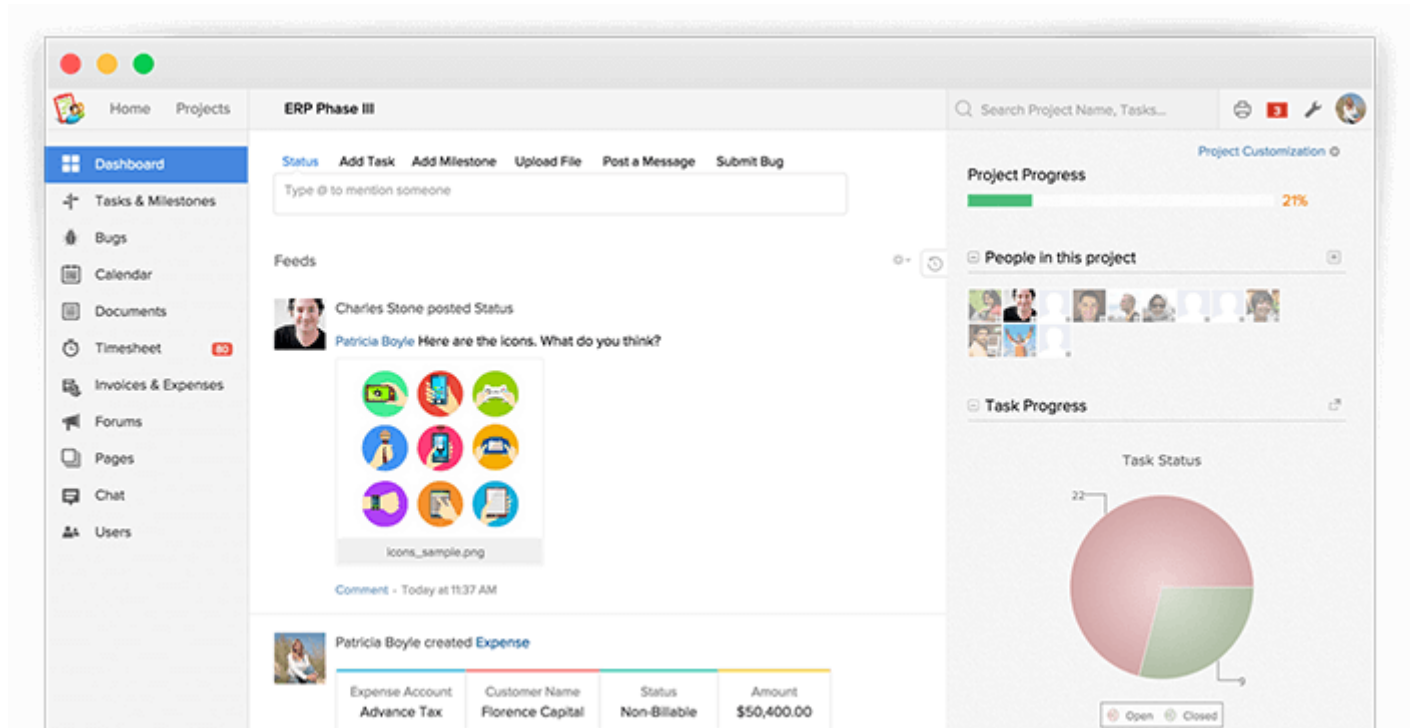

Top features:

- Gantt charts and calendar for planning
- News feed and document & file management
- Features for planning product roadmaps
- Email notifications
- Simple time tracking

What's special about this tool: Redmine is an open-source tool and has multilanguage support which might become handy. However, to use this PM tool, you first need to download it.

Pricing: Free

12.Zoho Projects

Zoho Projects is one of the best-known tools for simple project management, that can help teams streamline their upcoming work and tasks.

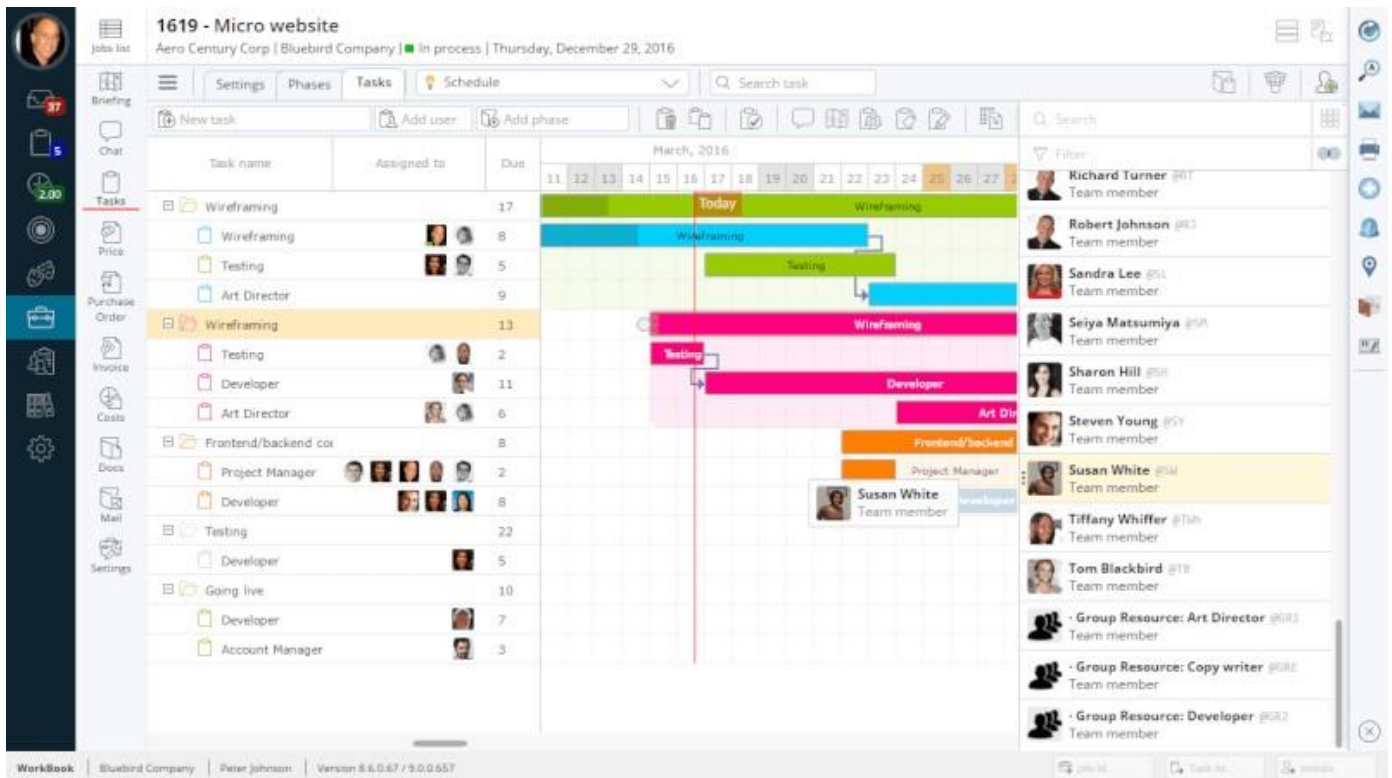

Top features:

- Task lists with multiple tasks and milestones
- Time tracking and time sheets
- Gantt charts to oversee project progress
- Document and file management

What's special about this tool: Zoho projects can be integrated with Zoho CRM and other tools to manage almost every aspect of your agency in one system.

Pricing: Up to 20 projects \$25/month, unlimited projects \$99/month; CRM and other additional features come with an extra price.

13.WorkBook

WorkBook is a software suite for project and resource management, CRM, collaboration and file sharing, forecasting & accounting.

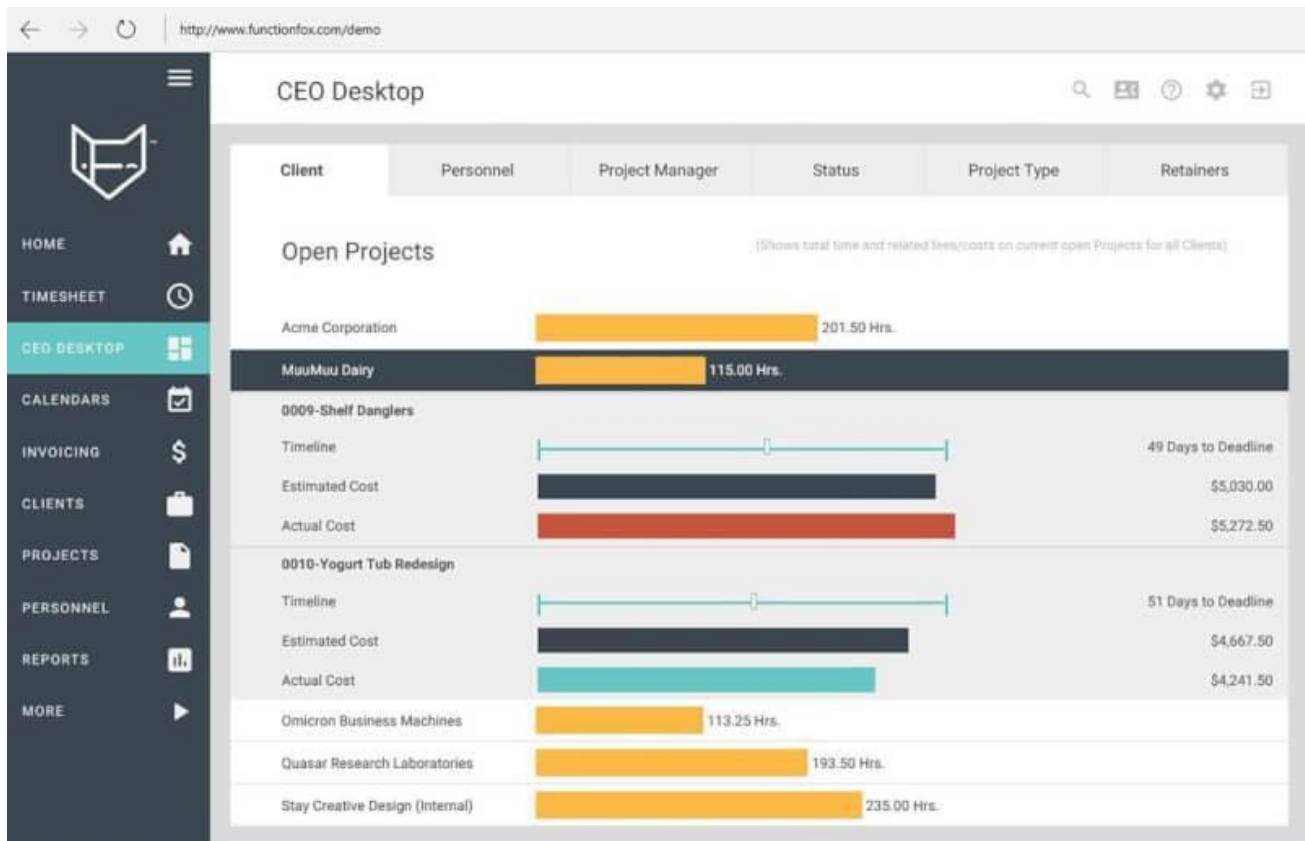

Top features:

- Project and tasks lists
- Gantt charts
- Sales pipeline
- Client portal
- Financial features like budgets, forecasts, and automatic billing

What's special about this tool: Not all clients have the same needs. WorkBook lets you choose exactly what modules that suit your needs and only pay for what you use.

Pricing: \$19 user/month, minimum 30 users

14.FunctionFox

FunctionFox has many helpful project management features, such as milestone tracking and budget comparison. It also has a nice user interface, making it pleasant to use.

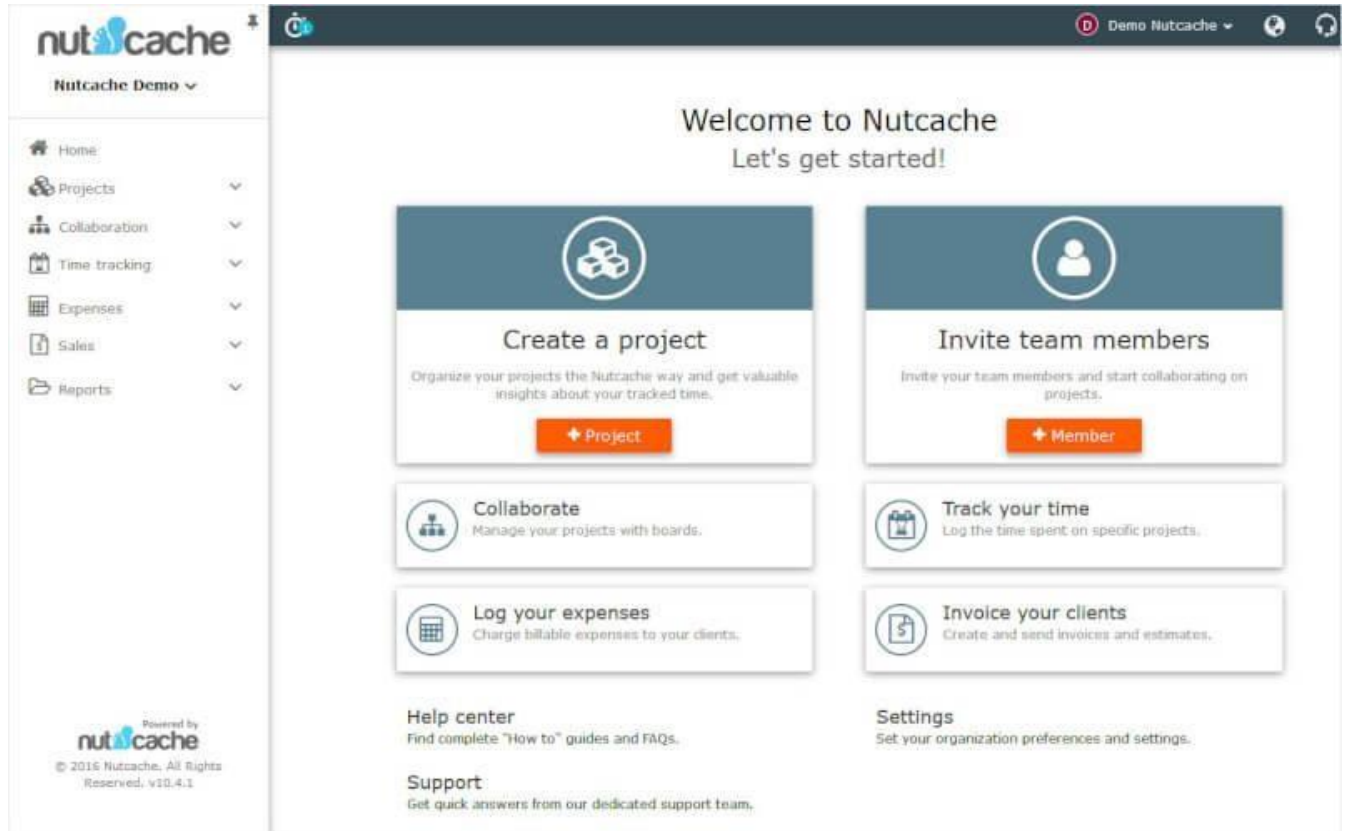

Top features:

- Scheduling unlimited tasks, and meetings
- Interactive real-time reporting
- Projects with sub-tasks and milestones
- Budget estimations
- To-do lists and time-tracking

What's special about this tool: FunctionFox lets users create visual management dashboards that can be customized according to personal preferences. It's a great way to get a quick overview of your upcoming work and your team's results.

Pricing: From \$5 user/month (\$35/month for 1st user)

15.Nutcache

Nutcache is an all-in-one project management tool that includes time tracking and invoicing features. It was built for small teams that bill their clients on a project basis.

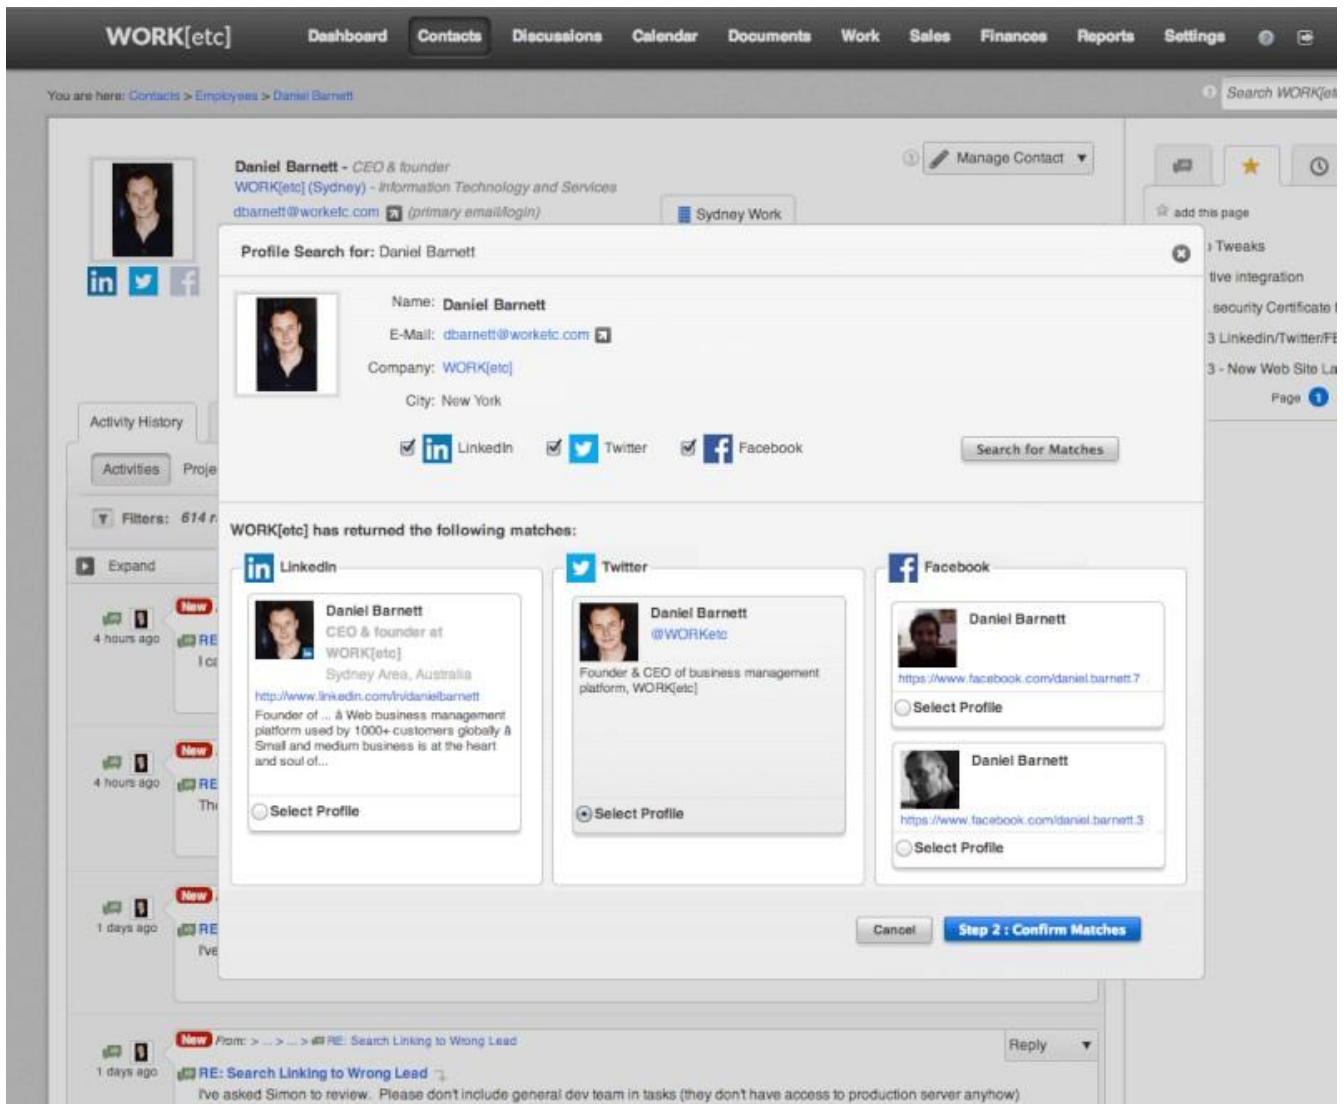

Top features:

- Project management and tasks
- Time tracking and time billing
- Expense management
- Linking projects and finished tasks to clients

What's interesting about this tool: Nutcache has a good-looking user interface, excellent for team collaboration and simple project management.

Pricing: Free up to 20 users (limited features), \$6 user/month for project management features, \$15 user/month for unlimited features

16.WORKetc

WORKetc has integrated CRM, projects, billing, helpdesk, reporting, and collaboration.

Top features:

- Link timesheets, documents, discussions, notes, contacts and more to your projects
- Manage complex project budgets
- Automatically capture and invoice all revenue activities across all departments
- Use live support, web forms, and email to capture support tickets

What's special about this tool: By integrating support cases directly inside of all areas of WORKetc, you can ensure the customer is always looked after. Suddenly your sales people are talking with your customer support people, and project issues can be assigned to the right person.

Pricing: From \$49 user/month (first 3 users \$65/month)

17.Cage

Cage is all about improving the way creative teams collaborate and work. It helps your team to manage projects, and have active discussions.

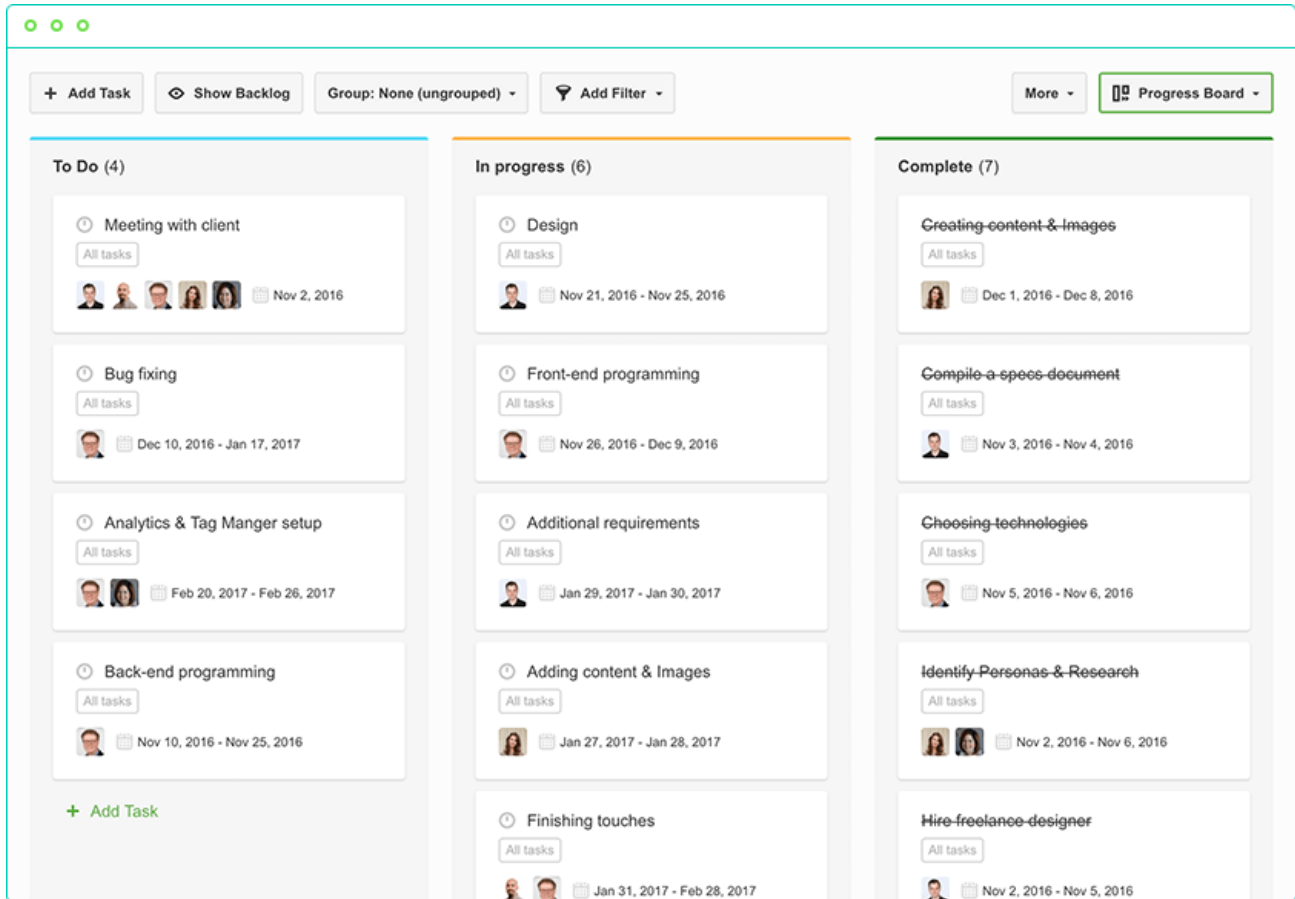

Top features:

- Manage and create projects
- Make notes and comments under tasks
- Keep track of all revisions
- Get approvals from clients
- Have video conversations
- Password protection for your projects

What's special about this tool: Cage combines project management and efficient collaboration. You can plan projects and organize video calls by using this one PM tool.

Pricing: From \$49/month for teams

18. Paymo

Paymo offers a simple yet powerful tool bringing together project management, work reporting, and time billing.

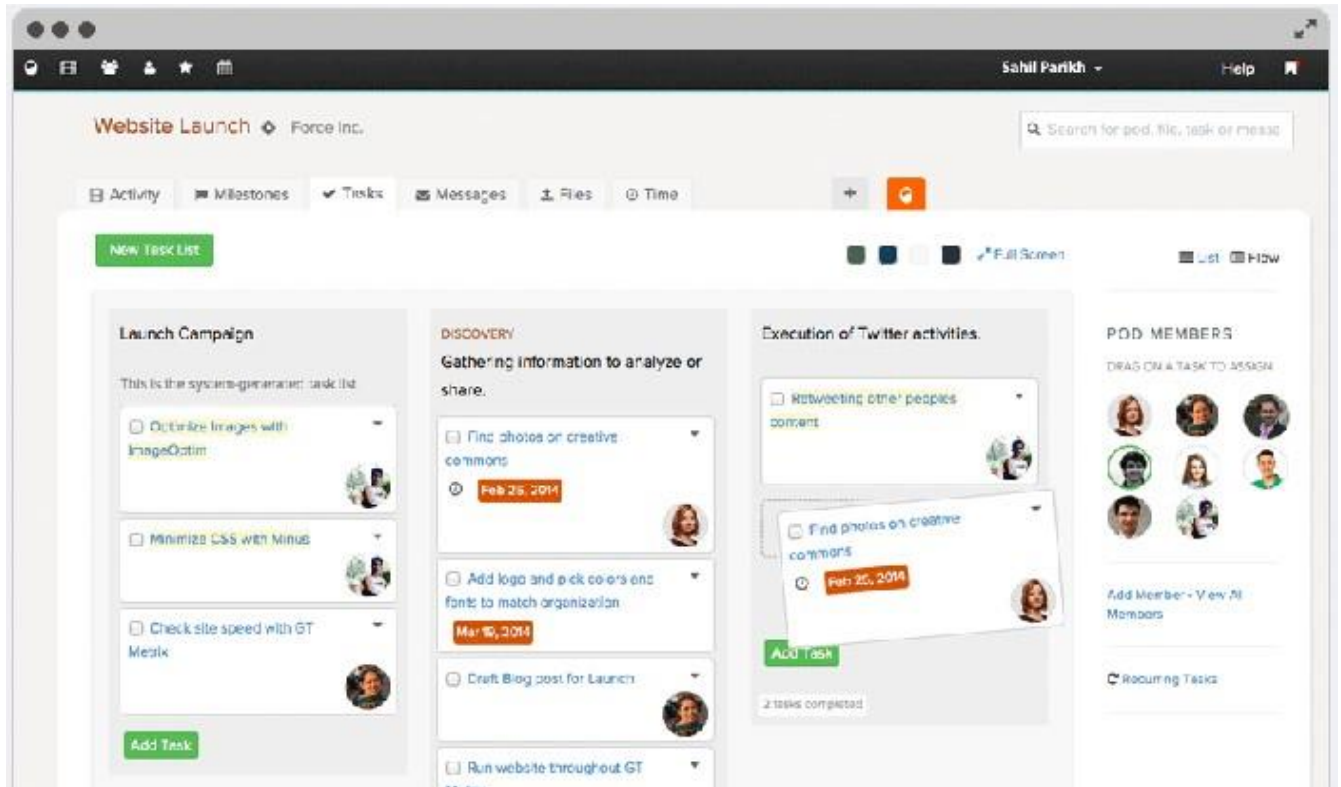

Top features:

- Tracking the time spent on tasks and projects
- Thorough work reports
- Dashboard to see your team's performance
- Billing customers for completed tasks
- Integrated project accounting

What's interesting about this tool: With Paymo Plus, you can automate your time tracking completely. All you need to do is download the desktop app, let it track your PC usage, and at the end of each day, categorize all your time entries.

Pricing: Free and paid plans from \$9.56 user/month

19. Brightpod

Brightpod is a web-based project management & time tracking software for digital marketing & creative teams.

Top features:

- Projects with tasks, priorities, and milestones
- Editorial calendar
- Logging time under each task
- Individual dashboards for team members
- In-app communication and file-sharing

What's special about this tool: When creating a project, you can use pre-set Pod templates for a faster set-up and customized project experience.

Pricing: From \$29/month for 10 users

Absolutely -- attached.

LiquidPlanner is a collaboration tool that combines project management and timetracking.

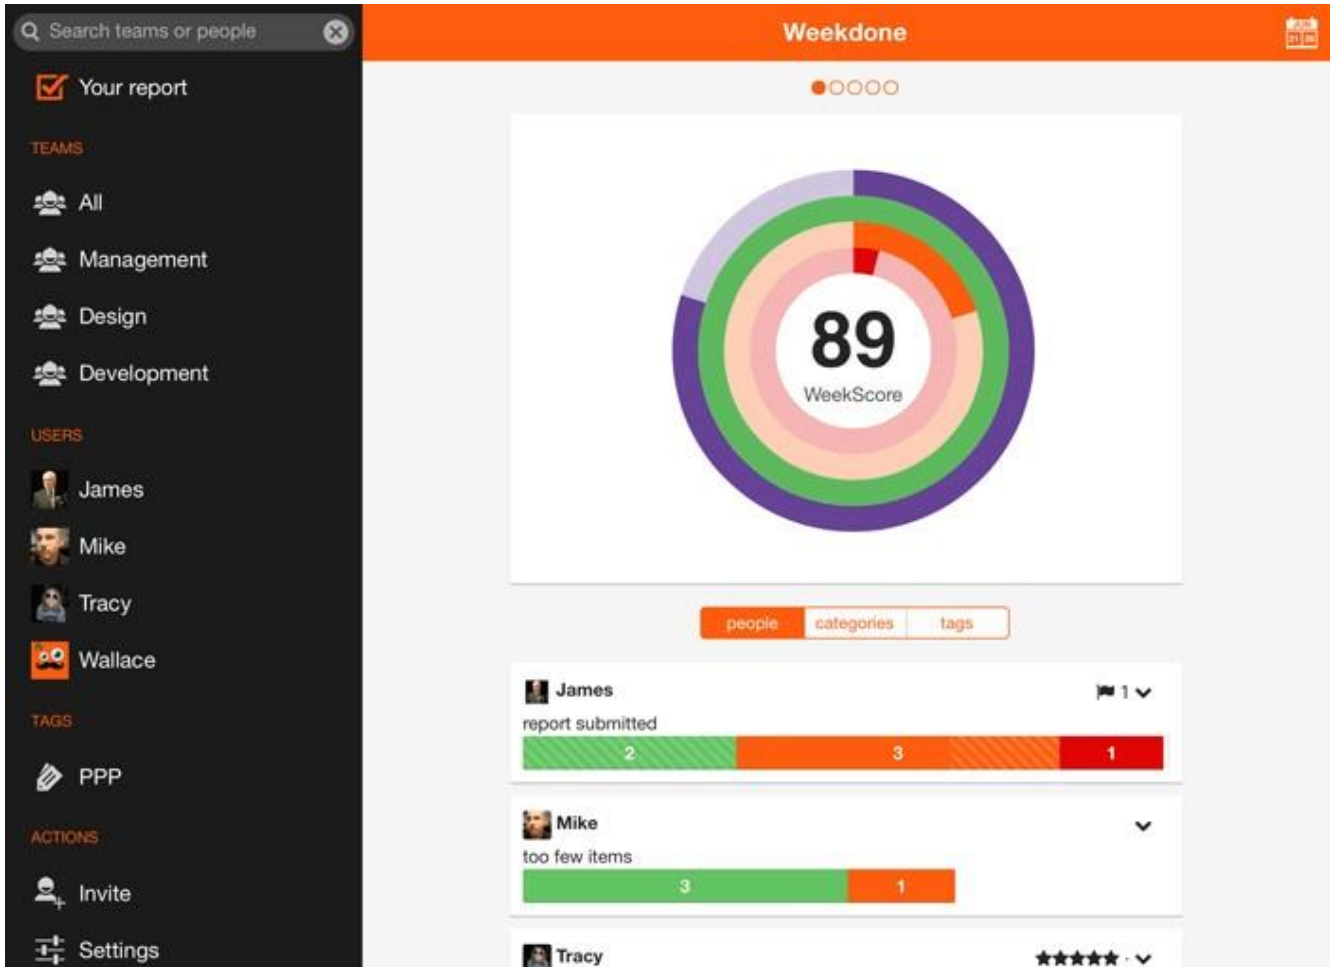

Top features:

- Estimating a realistic range of time to complete tasks
- Commenting on tasks and schedule
- Task-specific collaboration boards
- Adding notes to projects

What's special about this tool: LiquidPlanner has an interesting methodology for project management – it helps teams to set realistic deadlines based on best-case and worst-case scenarios.

Pricing: From \$39 user/month, billed annually

21.Weekdone

Weekdone is a weekly reporting and goal setting tool for small teams, that enables managers and leaders to get a clear overview of both short- and long-term progress.

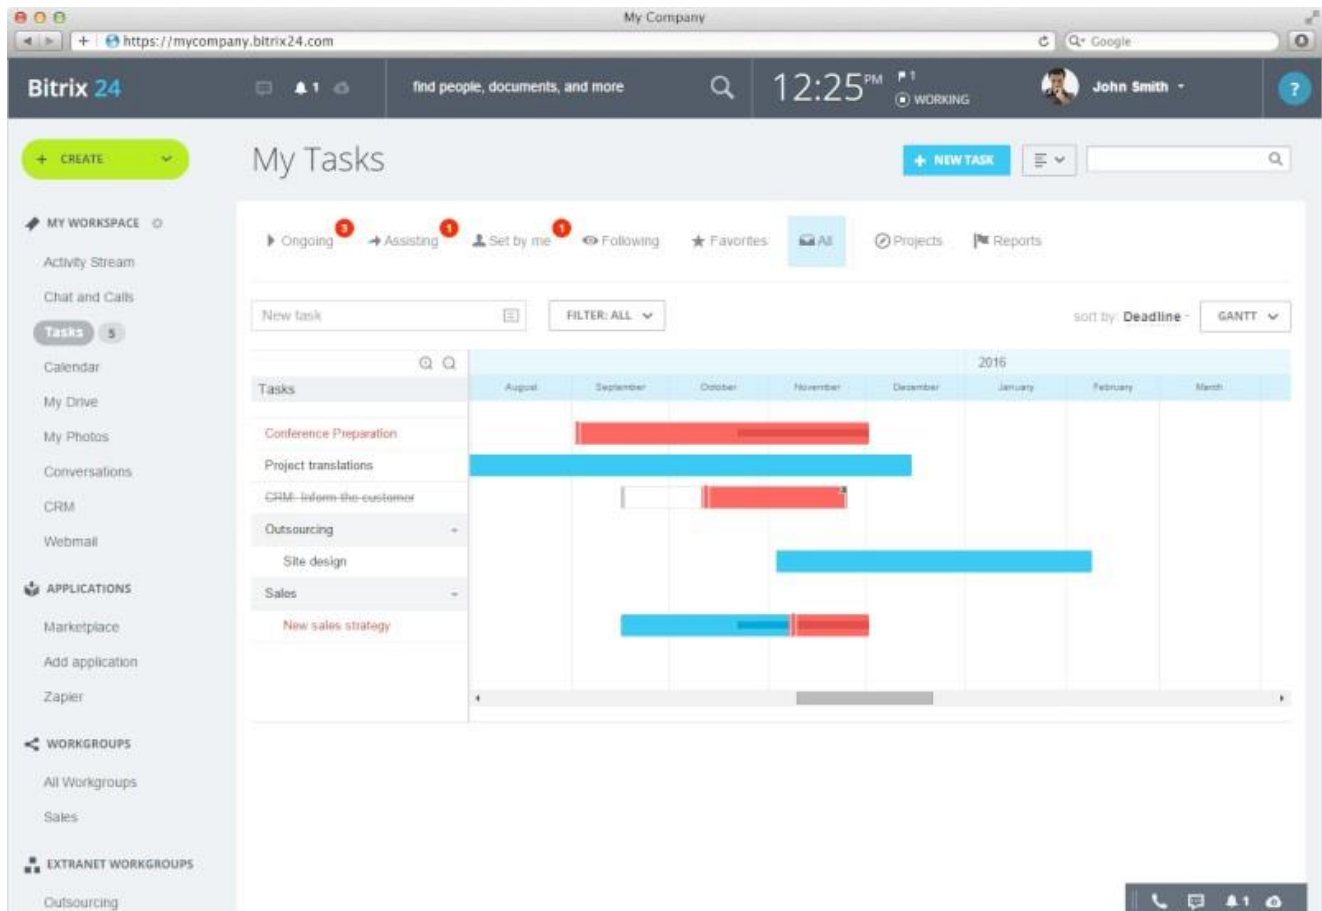

Top features:

- Weekly status reporting
- Quarterly Objectives and Key Results (OKRs)
- Graphical metric dashboard
- Private 1-on-1 feedback

What's special about this tool: When most project tools focus on either weekly status reporting or long-term goal-setting, Weekdone covers both of these. Employees can link their weekly tasks with quarterly objectives, so that their work is focused on the right objectives.

Pricing: Free for small teams, from \$49/month for larger teams

22.Bitrix24

Bitrix24 offers a complete suite of social collaboration, communication and management tools for your team.

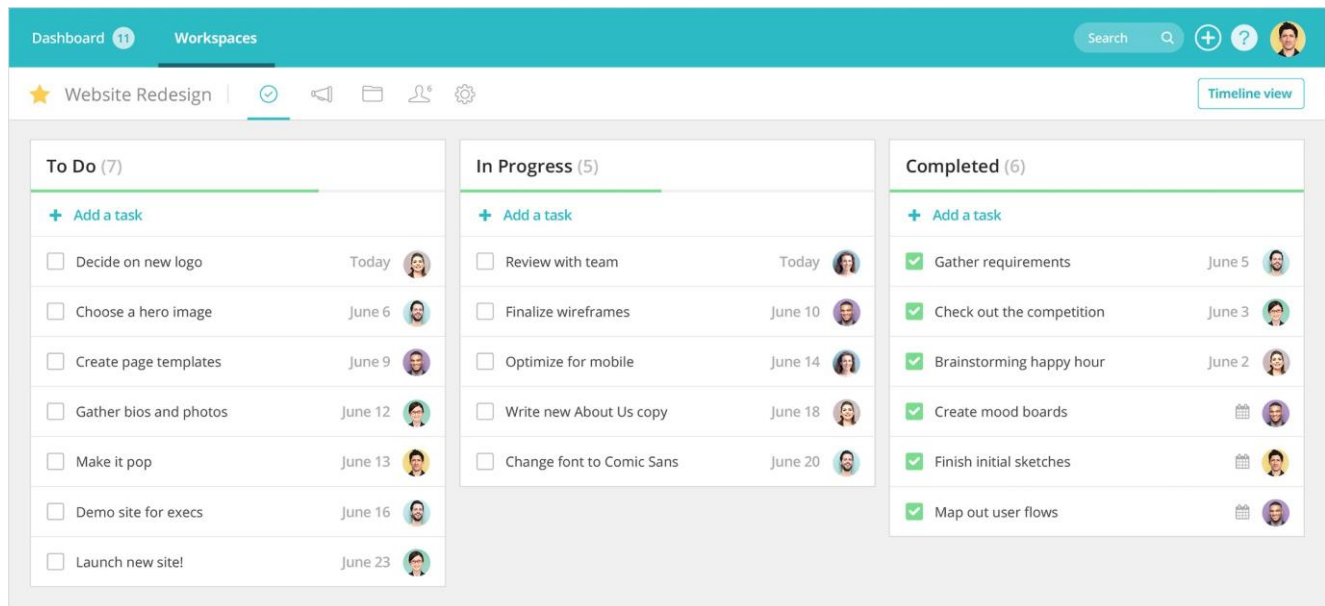

Top features:

- Social intranet for internal communication
- Gantt charts
- Employee workload management
- Customer relationship management
- Telephone integration

What's special about this tool: Bitrix24 has a large set of features, from traditional project management to integrated telephone and HR system, or internal email.

Pricing: Free plan, paid plans with more storage from \$39/month

23.Redbooth

Redbooth lets you manage your projects the way you want, with kanban boards or lists to organize tasks, and time tracking to see where your day goes. Or, if you're not sure where to start, there's a library of project templates to start your projects out in a click.

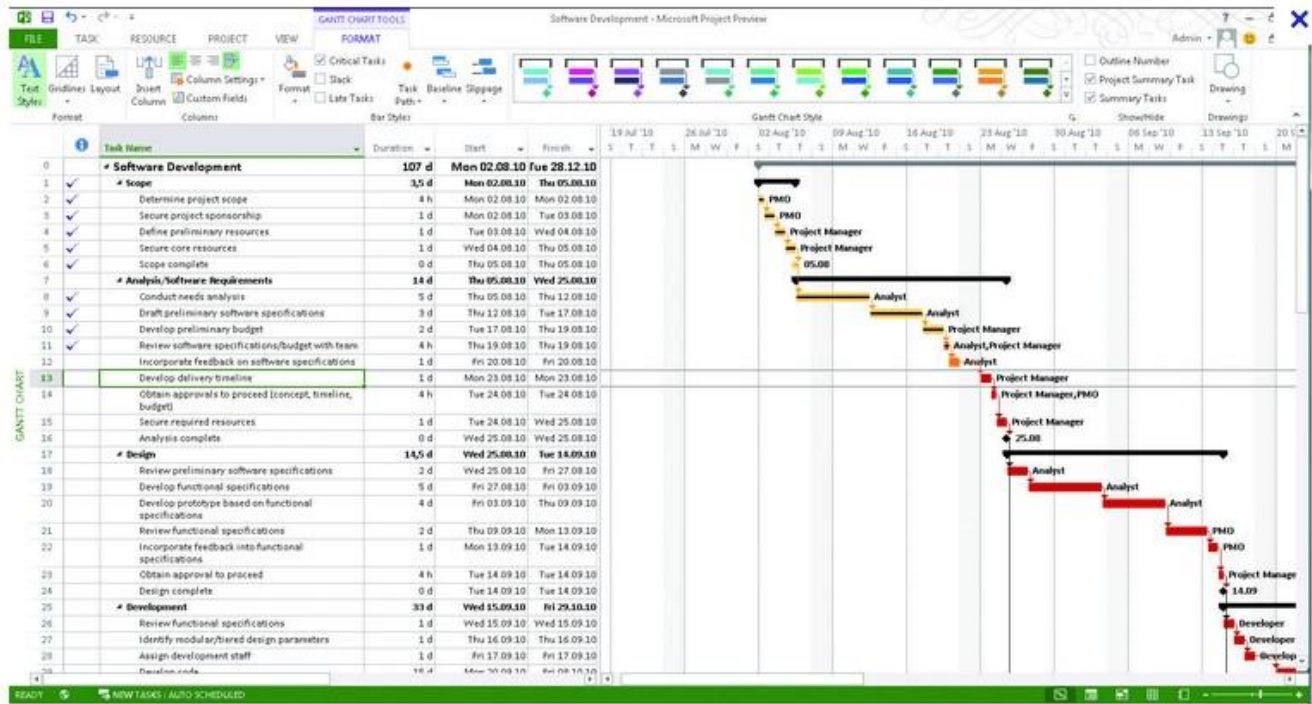

Top features:

- Simple project & task planning
- Shared virtual team workspaces
- HD video conferencing for collaboration
- Productivity reports for managers and team leaders
- iOS or Android applications

What's special about this tool: Unlike most PM tools, Redbooth's business package gives you everything you need to see and hear your team members. You'll get the tools for unlimited high-definition video conferencing, direct messaging, voice calling, and business chat to stay on top of everyone's schedule.

Pricing: From \$5 user/month

24. Microsoft Project

Microsoft Project helps to streamline project, resource, and portfolio management. This project tool is used by 20+ million users.

Top features:

- Project scheduling & costing
- Resource management
- Reporting & business intelligence
- Built-in project templates
- Project timelines

What's special about this tool:

Pricing: From \$30 month/user for cloud platform, from \$1,159 for on-premise software (for one PC)

MindGenius Hardware List

Created by:

Derek Wilson

12 Aug 2016

Note

Identify the assets within your area of responsibility.

The 'Asset types' branch of the project plan will give you some guidance as to what should be considered.

This is a first pass at this and will be worked on further after the due date.

Comments

Updated link - Spreadsheet now on Google Drive so updates are immediately reflected in the spreadsheet

Alan Stuart

07 Oct 2016 15:06

By Google Drive I mean Google Sheets *facepalm

@Jamie Daniels please share development assets list

COMMENT

MindGenius is designed for businesses who want to increase personal, team, and organizational effectiveness. It helps you capture and visualize information easily, turning ideas into actionable project plans and tasks.

Dynamic views allow you to switch easily between, planning, Gantt chart, and tasks. Identify dependencies, milestones, constraints, and critical path.

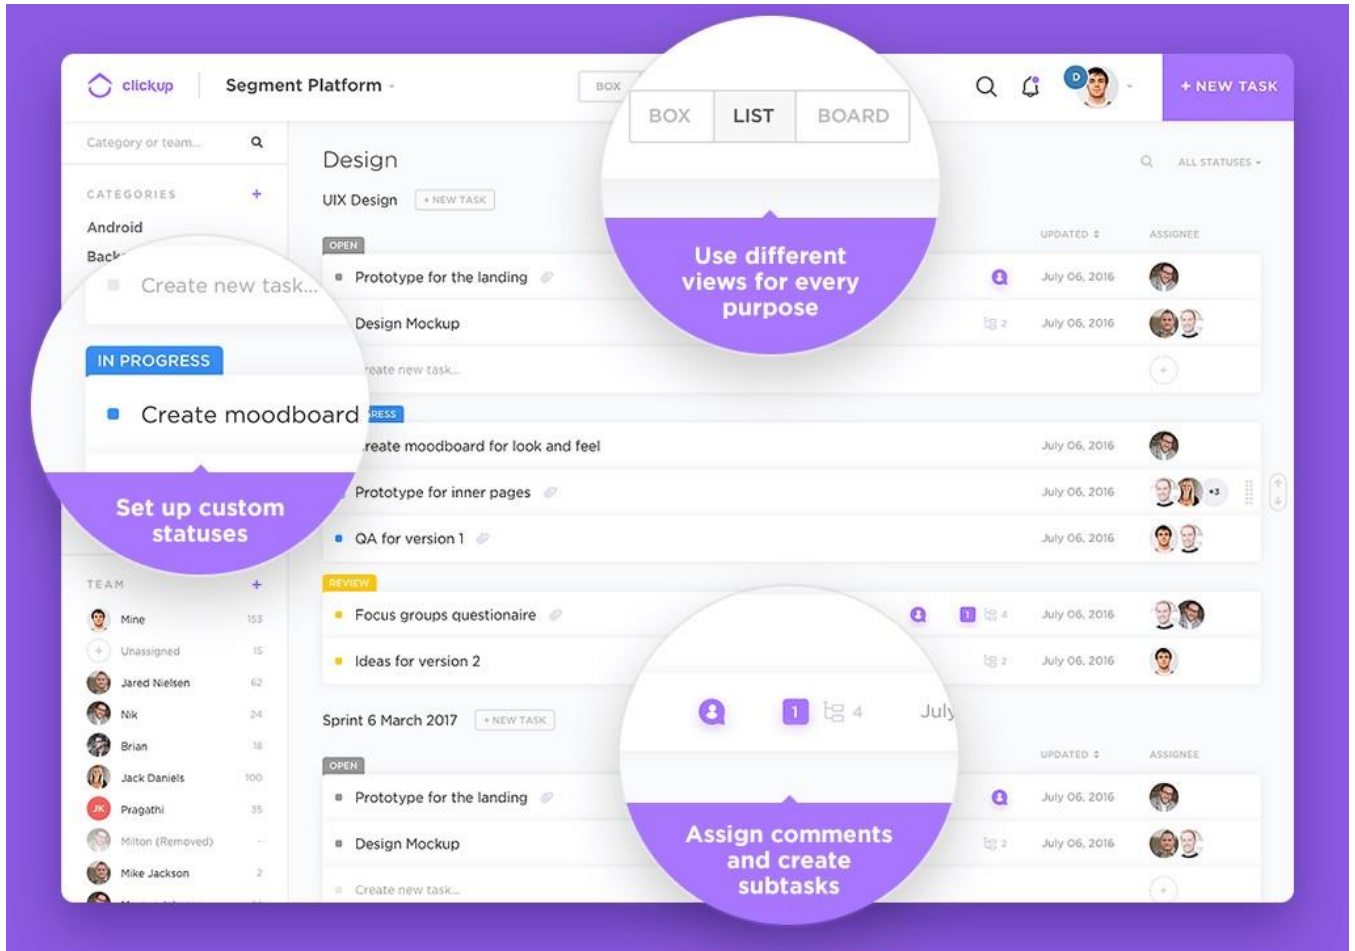

Top features:

- Task management with task board
- Mind mapping tools
- Internal communication
- Shared workspace

What's special about this tool: MindGenius offers a mind mapping feature that includes the fundamental facts, assumptions, and expectations that your stakeholders need to know and agree on.

Pricing: Different subscription and perpetual models.

26.ClickUp

ClickUp is a project management platform that's focused on efficient task management. Built for teams of all sizes and industries, ClickUp's fully customizable features make it a must-have for agile teams that want to keep everything from design to development in one intuitive place.

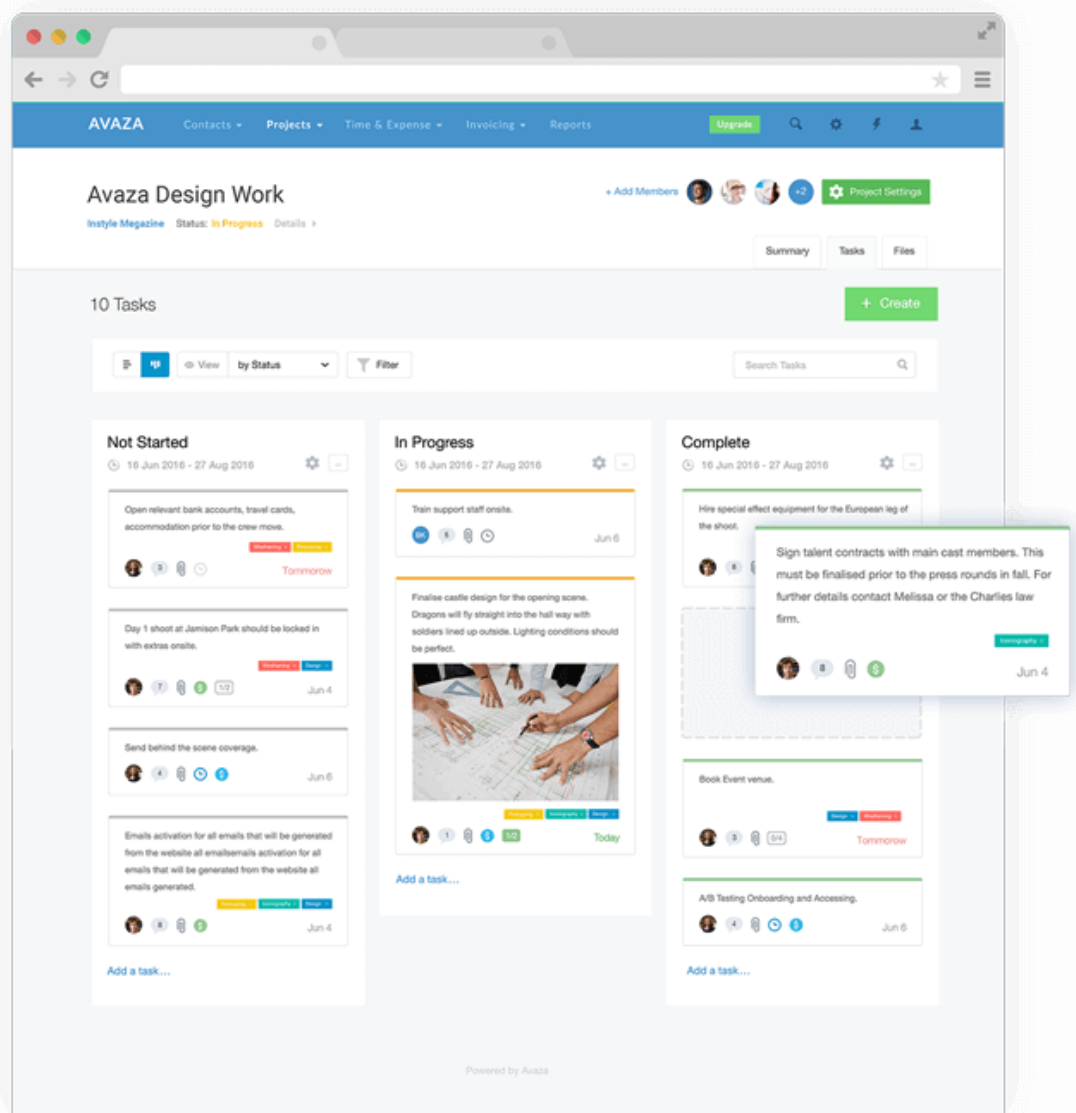

Top features:

- 3 different views (Board, Box, List)
- Assign comments
- 52 customizable features for each project (Statuses, Assignees, ClickUps)
- Elegant hierarchy to keep projects simple as they grow
- Tools like 'Smart Search' and 'Smart Estimates' make you more productive over time

What's special about this tool: ClickUp's beautiful design and unprecedented user experience in an otherwise dull space echoes what Slack did to communication.

Pricing: Free for up to 100MB, Premium for \$5 user/month

27. Avaza

Avaza is a simple project management tool that lets you collaborate on projects with both your team and customers. In addition, you'll be able to track your time and bill your customers.

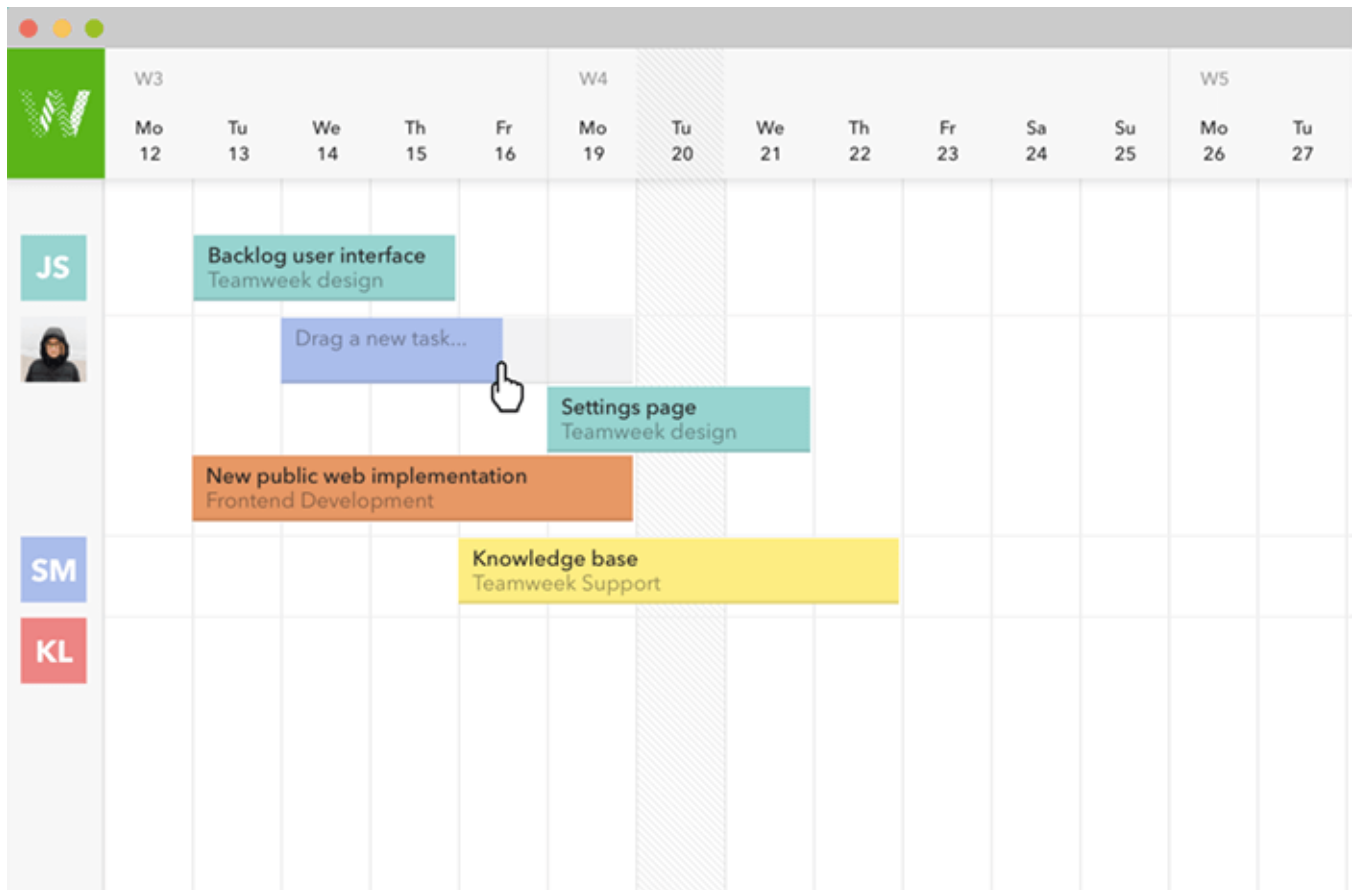

Top features:

- Task management on a cardboard-style interface
- Automatic task reminders
- Flexible time tracking and timesheet approvals
- Sending quotes & invoices in moments

What's special about this tool: Each project in Avaza has a user-friendly email address. Simply forward emails from your Avaza-registered email address to instantly convert these into tasks.

Pricing: Start free with up to 5 projects, \$39.95 for unlimited projects

28.Teamweek

Teamweek is a timeline-based project management tool that lets teams schedule their upcoming tasks and meetings into a shared calendar.

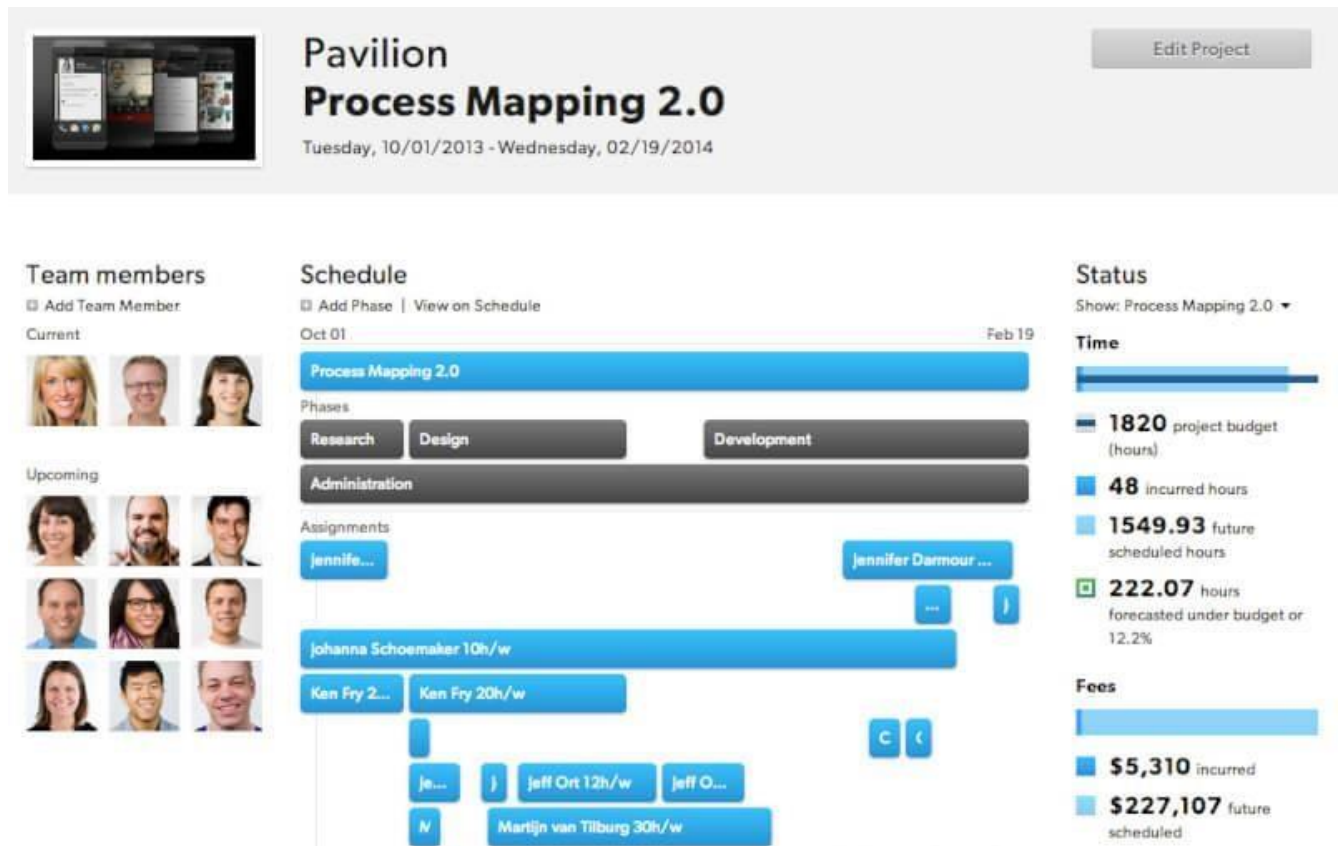

Top features:

- Simple project management
- Gantt-chart interface
- Drag-and-drop task management
- Scheduling work hour by hour
- Overseeing your team members' availability

What's special about this tool: Teamweek serves as an add-on to more comprehensive project management tools, making time-scheduling super easy. If you're looking for a cool time planning tool, check it out!

Pricing: Free for up to 5 members, \$39 for larger teams

29.10,000ft Plans

10,000ft Plans is a visual project management application with strong features in resource planning and forecasting.

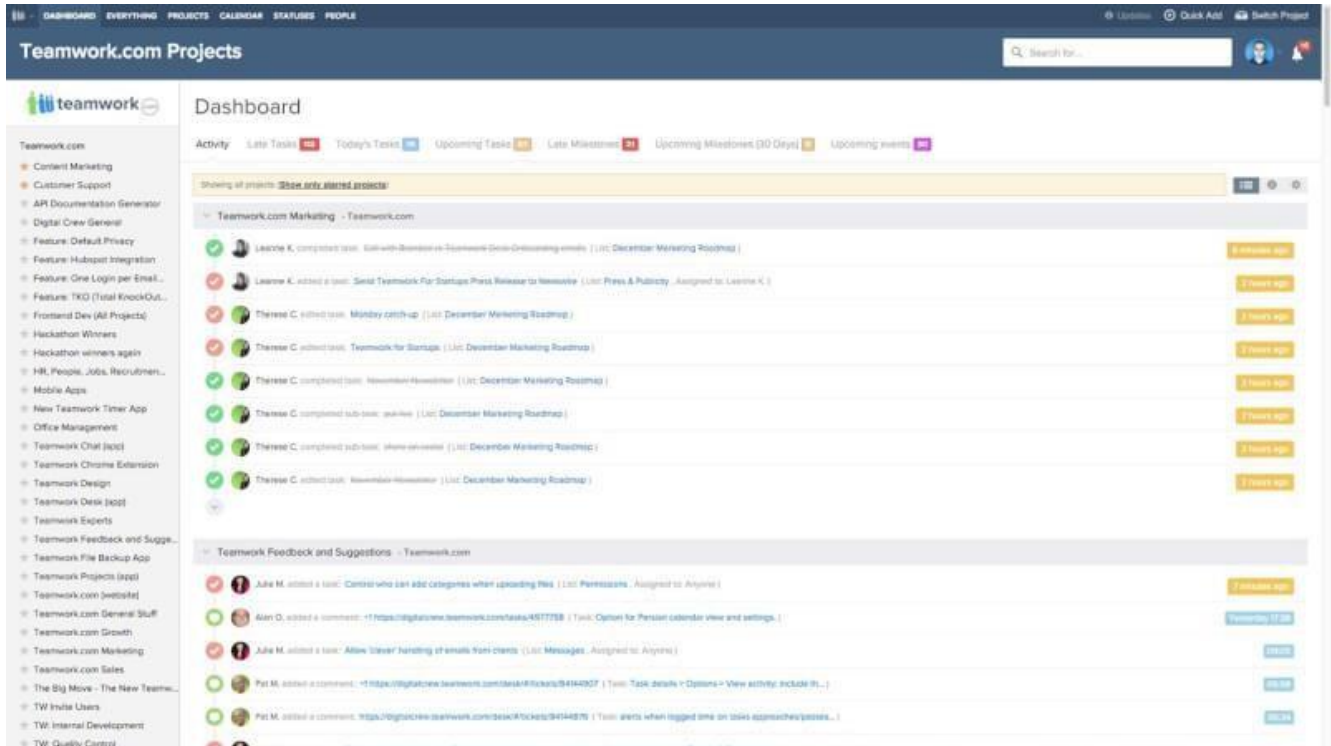

Top features:

- Resource management
- Project and task management
- Task delegation
- Project and resource matching
- Detailed project reporting
- Time tracking

What's special about this tool: 10,000ft gives a broad overview of every project, making it easier to schedule, plan, and estimate the outcome. With a beautiful interface, this tool is suitable for creative agencies of all sizes.

Pricing: From \$10 user/month

30.Teamwork Projects

Teamwork Projects enhances team collaboration and helps creative teams to organize their work and tasks.

Top features:

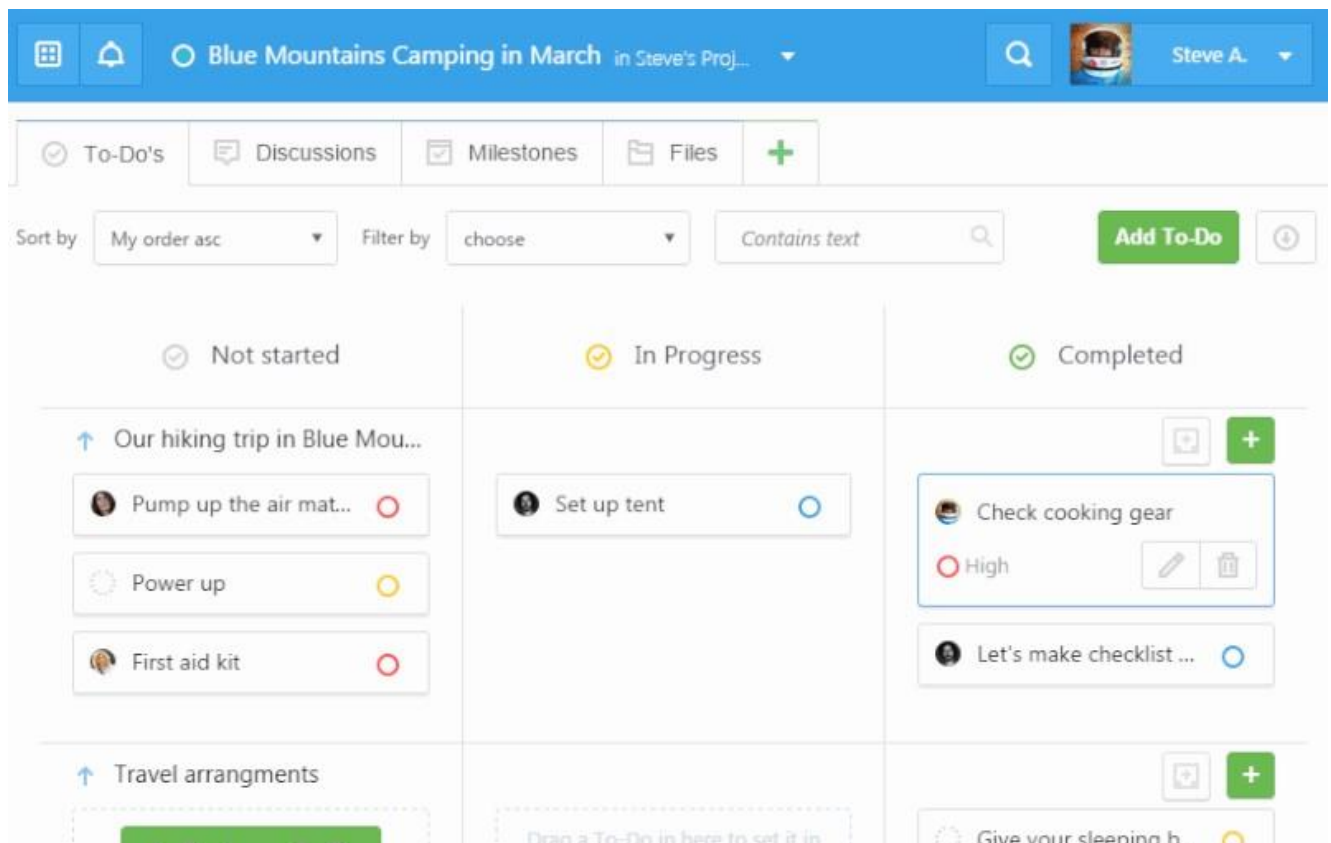

- Project planning on Gantt charts
- Time tracking and reporting
- Customizable features on each project
- Task lists with sub-tasks
- Milestone management
- Comprehensive user permissions
- Reporting

What's special about this tool: Teamwork Projects is easy to use and packed with features. The tool integrates seamlessly with Teamwork.com's other two products; Teamwork Desk and Teamwork Chat.

Pricing: From \$49/month

31.

Freedcamp

Freedcamp will help you, whether you have wedding plans, organizing a camping trip or leading a work project. Working from home or at the office.

Top features:

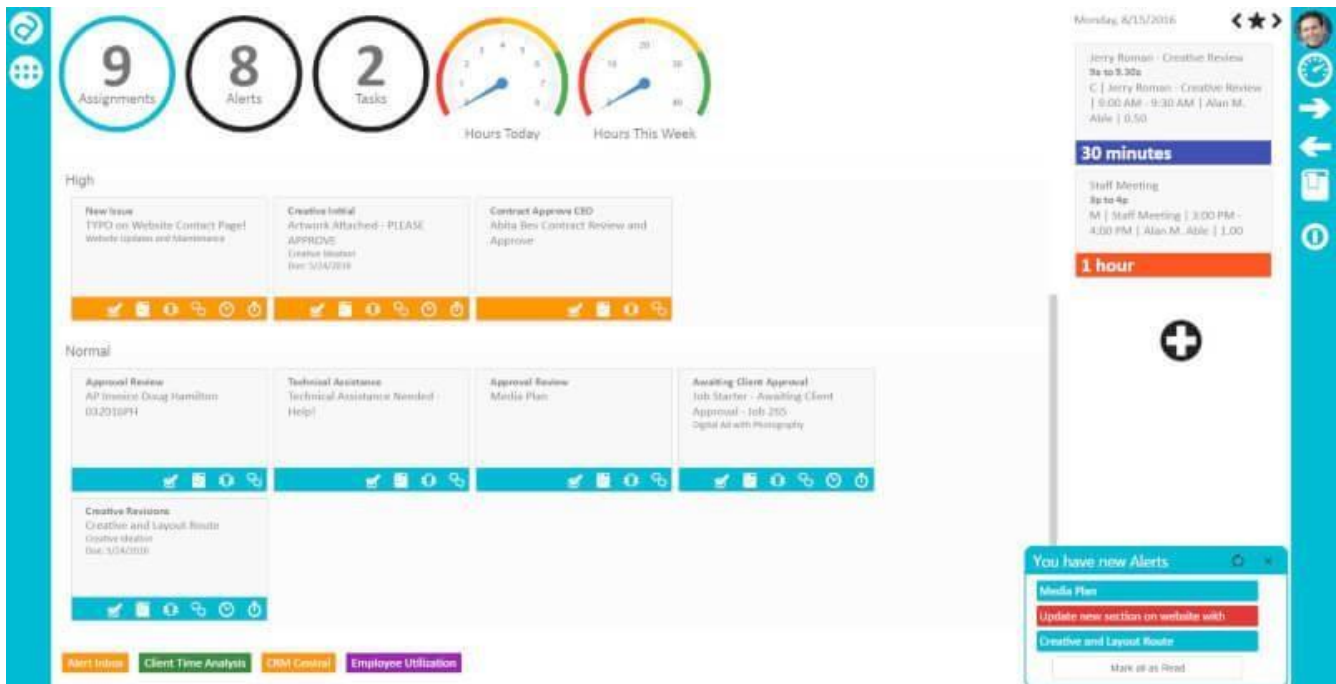

- Task lists & status management
- Shared team calendar
- Project templates
- Issue tracker

What's special about this tool: Like sticky notes? You're in luck! Freedcamp uses kanban board with sticky notes to manage tasks.

Pricing: Free plan, paid add-ons

32.

Advantage

Advantage is a project management software designed for a great user experience – clean interface and simple functionality.

Top features:

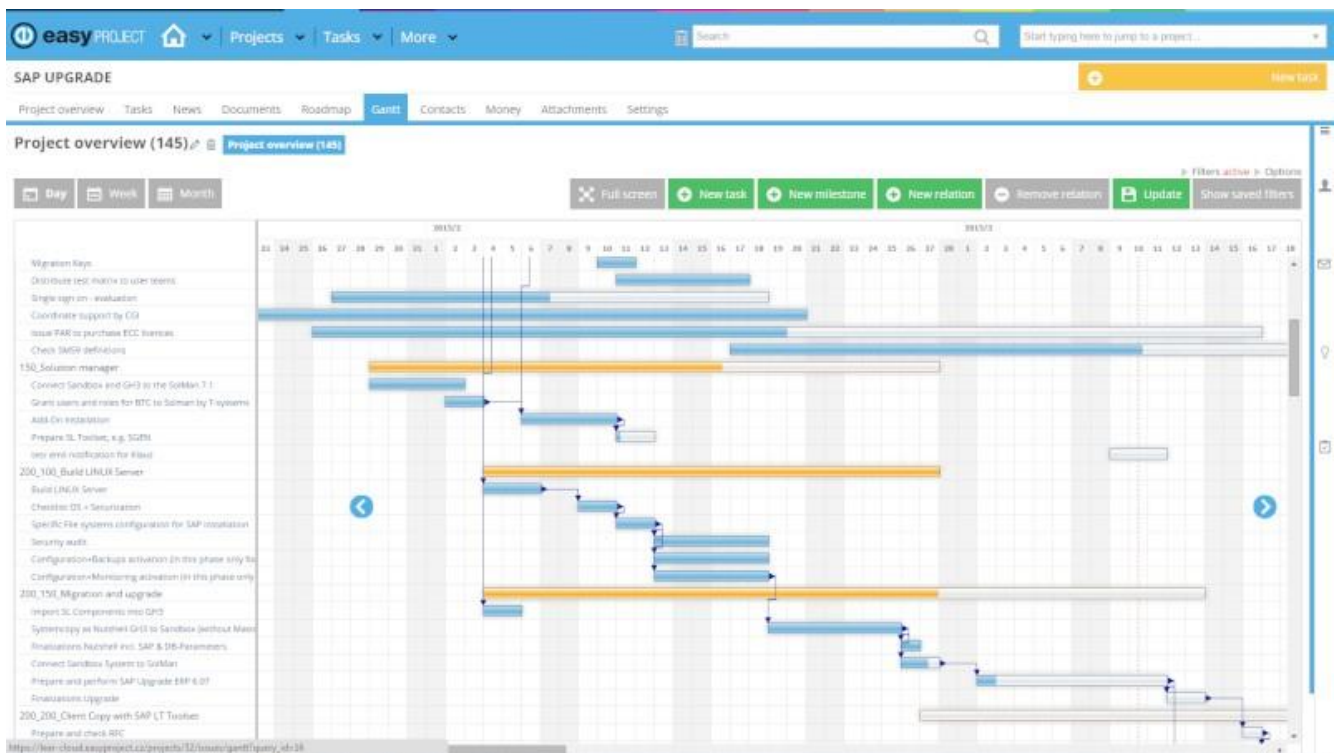

- Manage time, tasks, and expenses
- Automate and expedite work
- Manage media
- Manage prospect and client activities
- Get thorough reports and forecasts

What's special about this tool: Advantage is most suitable for agencies.

Pricing: Upon request

33.

Easy Project

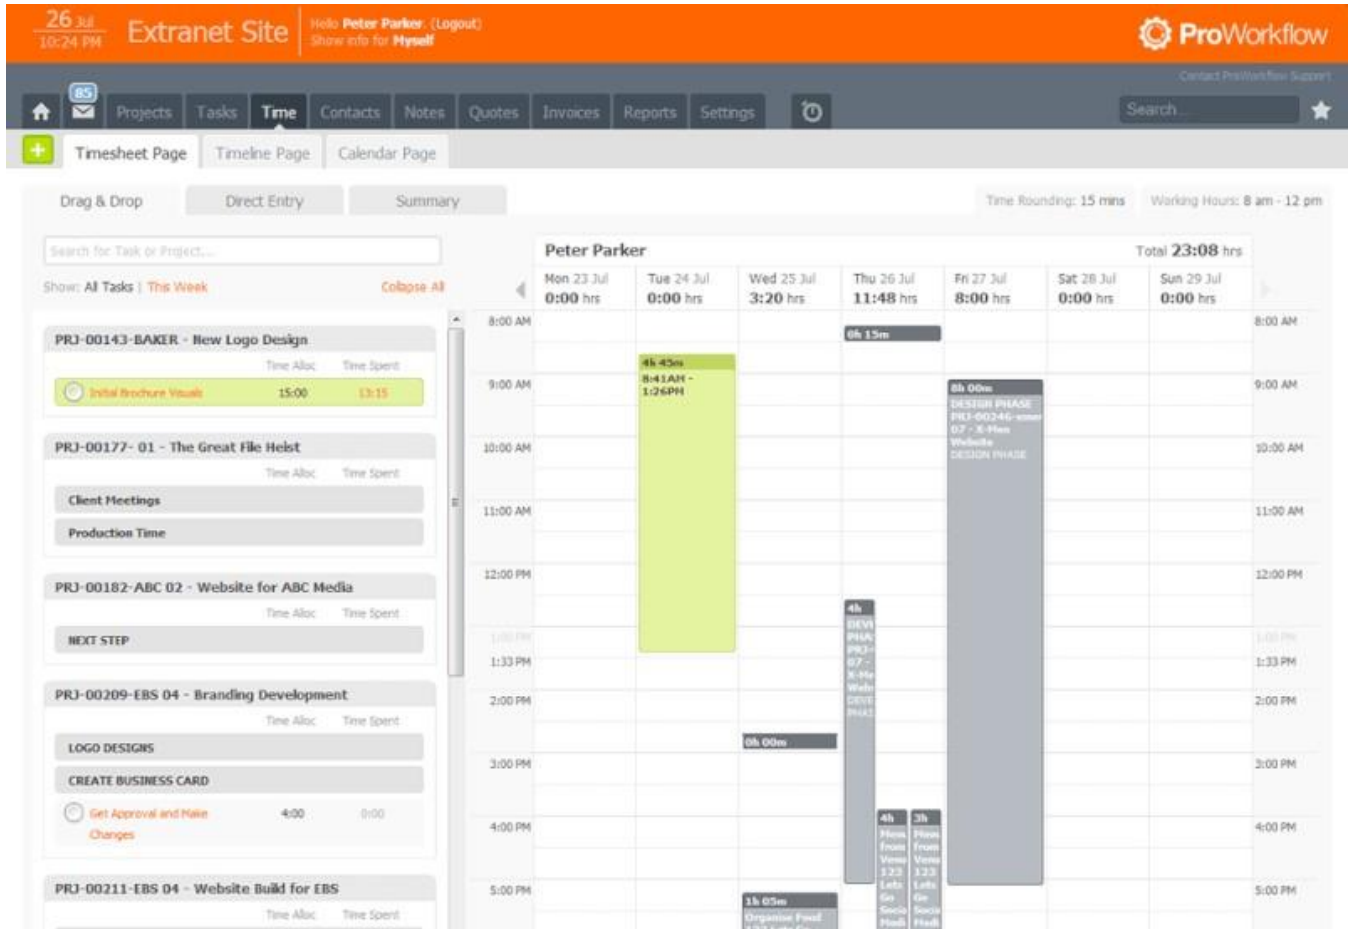

Easy Project is easy, visual and intuitive project management software.

Top features:

- Gantt chart
- Risk management
- Portfolio management
- Project templates

What's special about this tool: Easy Project is a fit for a number of different industries, from IT & software development to education or voluntary projects.

34.ProWorkflow

ProWorkflow makes it a breeze to assign staff, track time or reschedule projects.

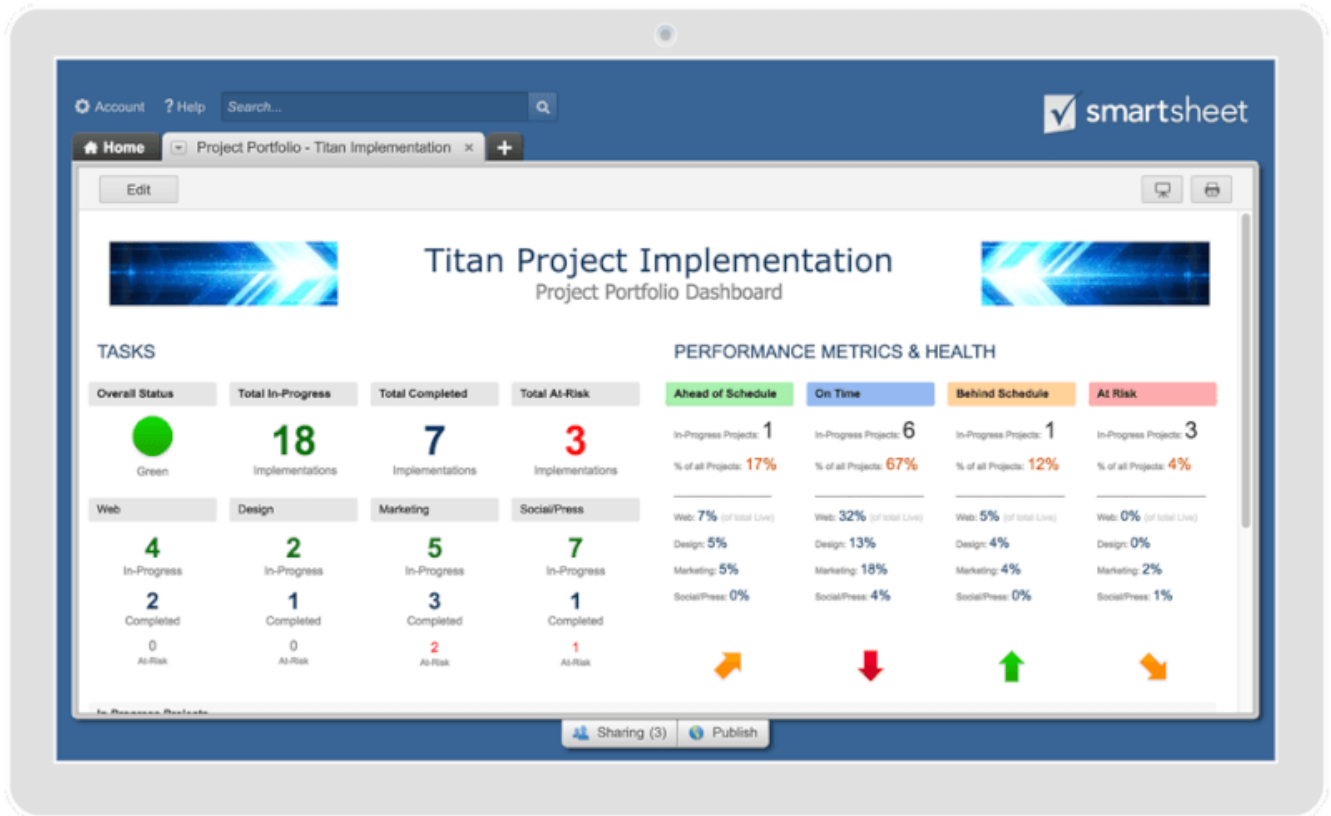

Top features:

- Dashboard for an overview of your workload
- Allocate tasks
- View workload across teams
- Manage contacts
- Share files
- Manage invoices and quotes

What's special about this tool: Convenient mobile application lets your track time, communicate, and complete tasks on the move.

Pricing: From \$22 month/user for teams

35.Smartsheet

Smartsheet is excellent for managing and automating collaborative work.

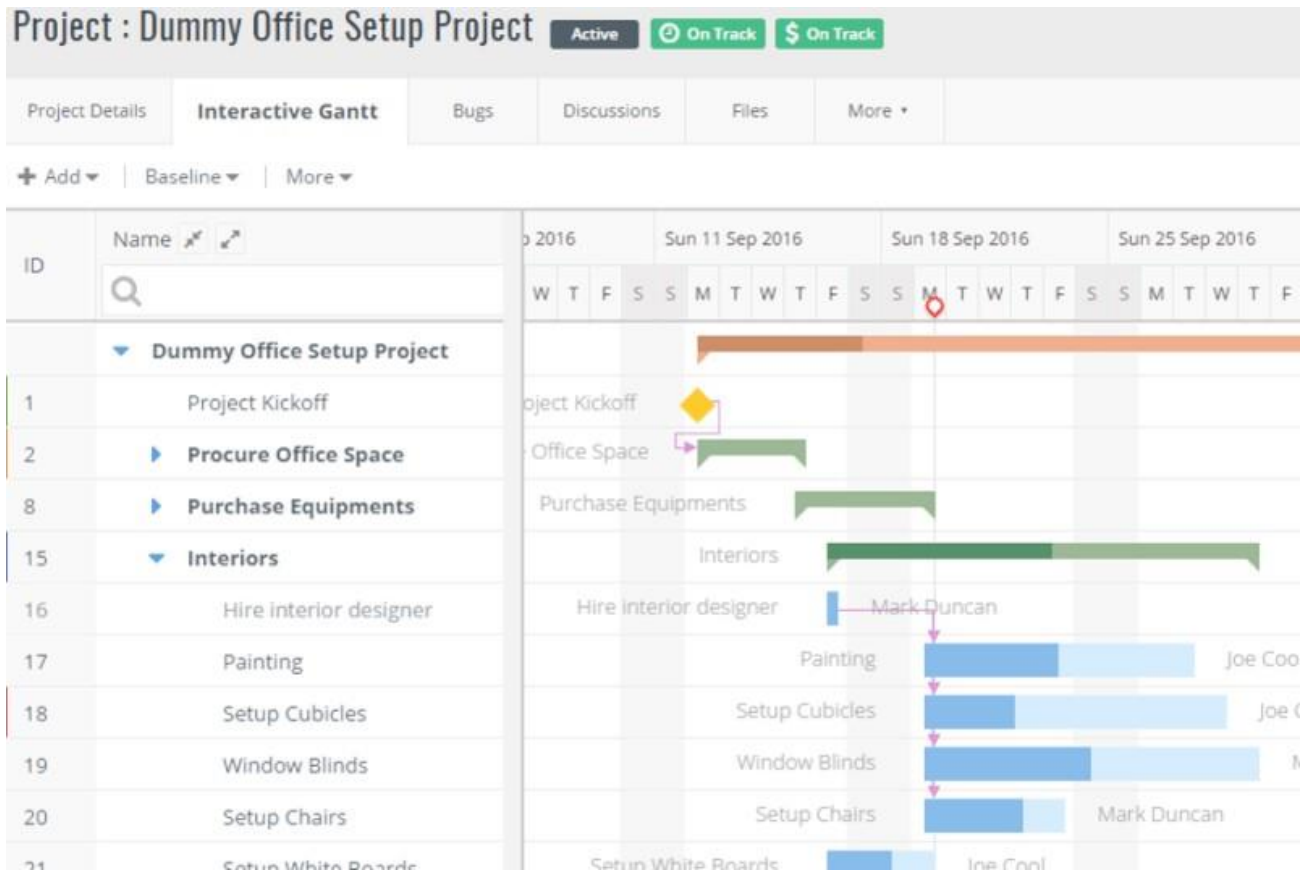

Top features:

- Project plans and schedule
- Program rollups
- Resource management
- Budget tracking
- Strategic planning

What's special about this tool: Smartsheet is trusted by over 50% of the Fortune 500.

Pricing: From \$15 month/user for teams Check out this [Smartsheet alternative!](#)

36.Celoxis

Celoxis offers comprehensive project management software for enterprises.

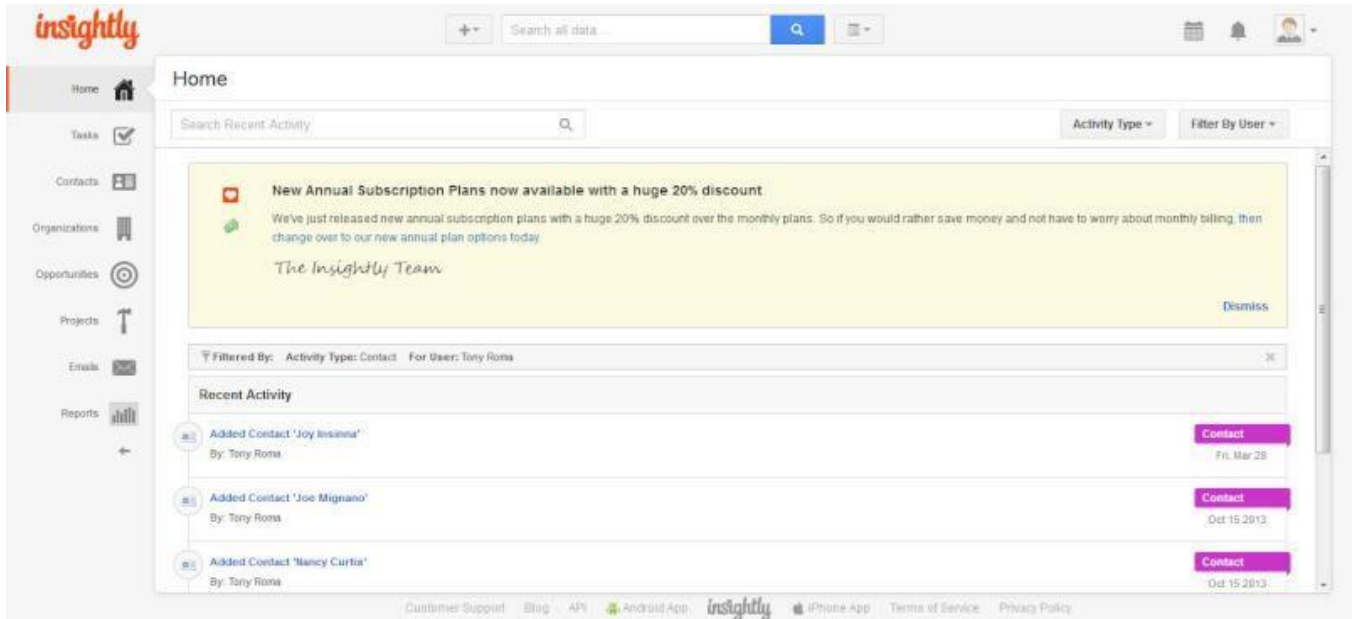

Top features:

- Advanced scheduling
- Gantt charts
- Project tracking
- Financial management
- Reporting analytics

What's special about this tool: Depending on your team's needs, Celoxis offers both SaaS and On-Premise options.

Pricing: From \$25 user/month for cloud solution, \$450/user for on-premise solution

37. Insightly

Insightly is a powerful CRM with a project and business management feature set.

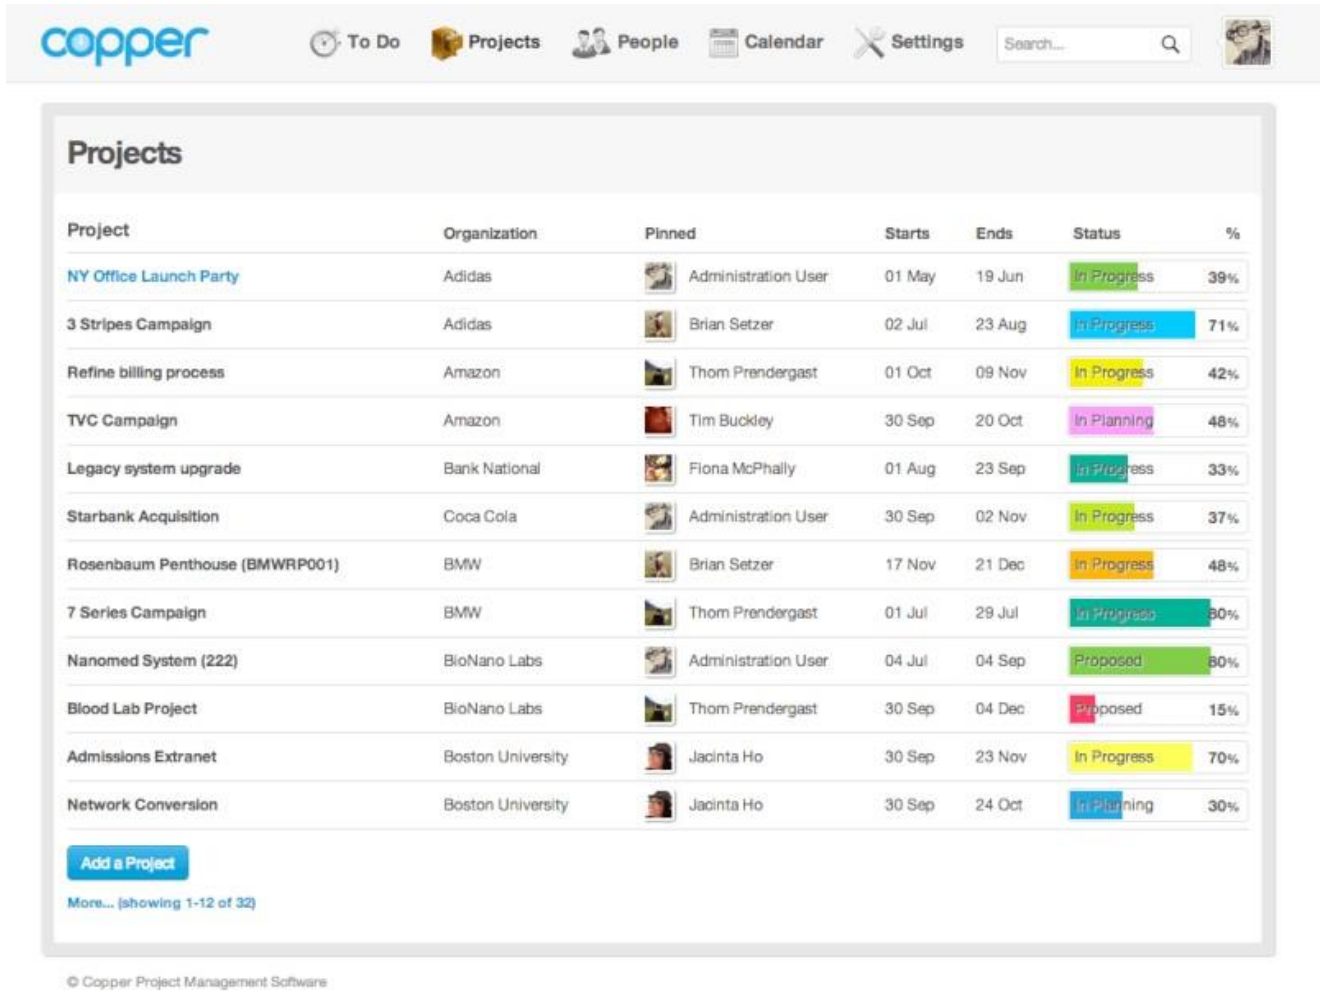

Top features:

- Manage leads, contacts, organizations, partners, vendors and suppliers
- Track project activity and performance against milestones
- Look at your business any way you want with task dashboard, activity sets, reports and more

What's special about this tool: Insightly CRM is tailored for any level of experience – from first time CRM users to sales experts.

Pricing: From \$15 month/user for teams

38.Copper Project

The screenshot displays the Copper Project Management Software interface. At the top, there is a navigation bar with the 'copper' logo, icons for 'To Do', 'Projects', 'People', 'Calendar', and 'Settings', a search bar, and a user profile icon. The main content area is titled 'Projects' and contains a table listing various projects. Each row includes the project name, organization, pinned user, start and end dates, status, and progress percentage. A blue 'Add a Project' button is located at the bottom left of the table, and a link 'More... (showing 1-12 of 32)' is at the bottom right. The footer of the interface reads '© Copper Project Management Software'.

Project	Organization	Pinned	Starts	Ends	Status	%

© Copper Project Management Software

Copper Project simplifies work processes as an affordable and invaluable executive tool, from Large multi-national projects to small home-based ventures.

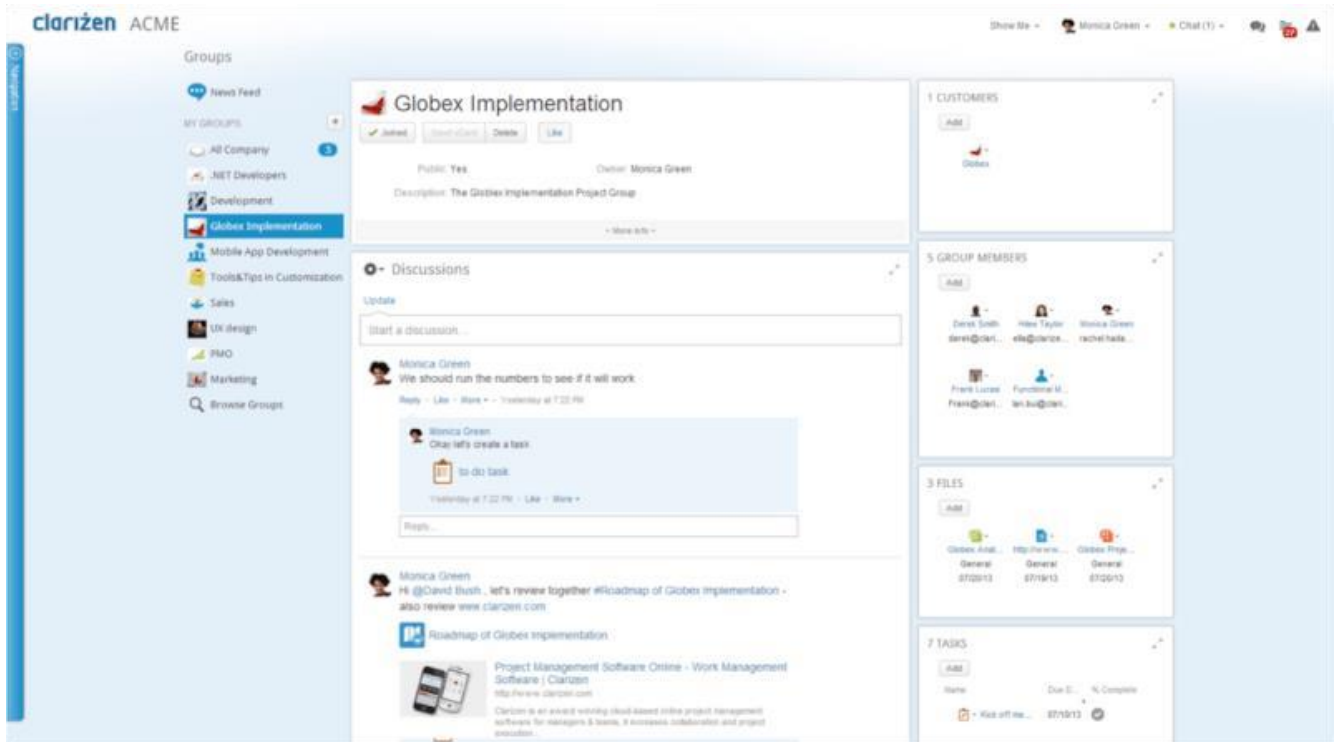

Top features:

- Collaborative project and task views
- Project templates
- Task timers
- File sharing

What's special about this tool: Copper offers simplicity in project resource management and communication.

Pricing: From \$49/month

39. Clarizen

Clarizen's cloud-based project management software has a single goal: to help move your business forward.

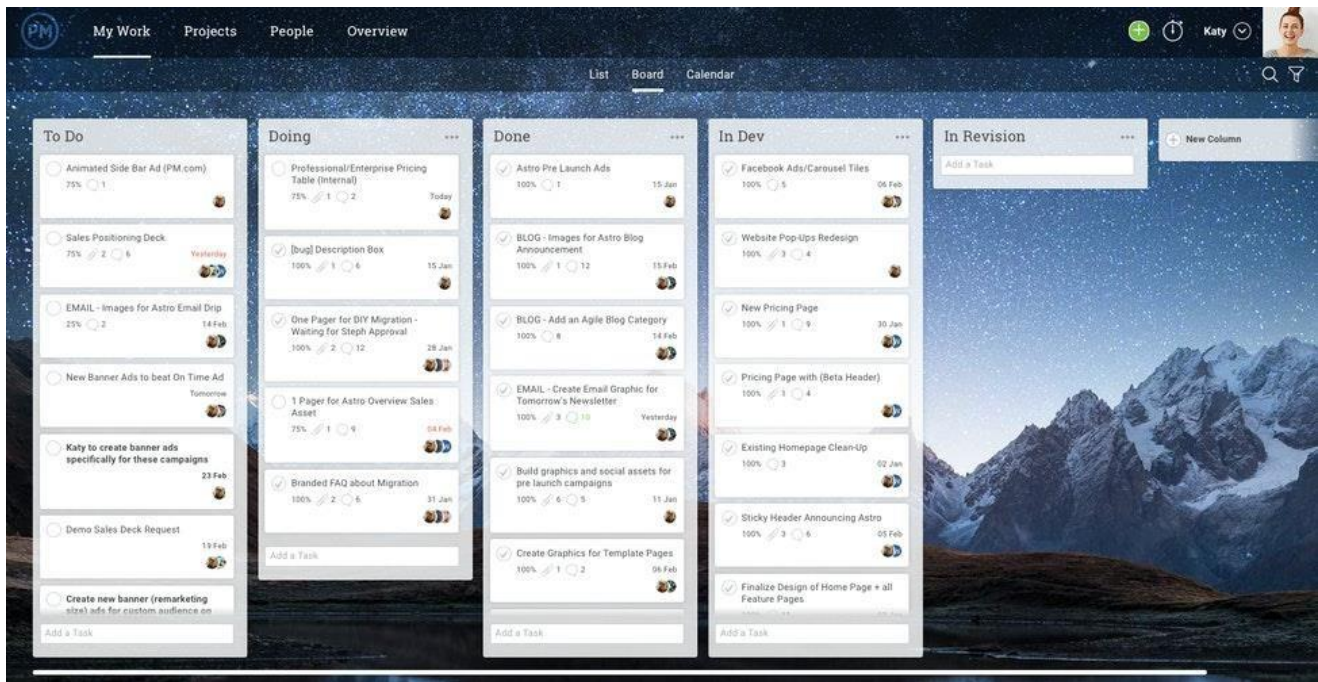

Top features:

- Unlimited number of projects
- Automated and repeatable processes, alerts and workflows
- Social collaboration
- Budget tracking & expense management

What's special about this tool: Clarizen offers configurable workflows – customize Clarizen to fit how your enterprise does business, not the opposite.

Pricing: From \$60 user/month

40.ProjectManager.com

ProjectManager.com is a project planning software fully integrated with Google Apps, Microsoft Word, Excel and Project. From planning to tracking progress and reporting, it provides a full suite of tools for you to meet your project goals and manage your team.

Top features:

- Task management tools
- Gantt charts
- Project planner
- Timesheets

What's special about this tool: ProjectManager.com is useful for remote teams as it lets you share and discuss projects online, create group discussions and invite team members to chat online or by mobile.

Pricing: From \$15 user/month

41.Highrise

The screenshot displays the Highrise web application interface. At the top, there is a dark red header bar containing the Highrise logo, navigation links for 'Add Contact' and 'New Task', a search bar with the placeholder text 'Jump to a contact, case, deal, tag, or search...', and links for 'Settings', 'Sign out', and 'HELP'. Below the header, a progress bar indicates three steps: 'Step 1: Choose type' (active), 'Step 2: Match Data', and 'Step 3: Review'. The main content area is titled 'Choose import type' and includes a 'Need help?' link. It features three buttons for file uploads: 'Upload a CSV File (.csv)', 'Upload an Excel File (.xls)', and 'Upload a vCard'. Below these buttons, there is a section for 'Download sample files' with instructions and links to sample files for CSV and XLS formats. A final section titled 'Answers to common questions about imports' lists several FAQ items.

Highrise is the just-right, more thoughtful way to keep track of the people, conversations, and tasks that are the lifelines of your business **Top features:**

- Store important emails
- Attach documents and files
- Control who sees what with easy privacy settings
- Keep track of important tasks
- Assign tasks to team members

What's special about this tool: Highrise was designed to simplify your workflow, no more, no less – as simple as that!

Pricing: From \$24/month for small teams, from \$49/month for larger teams
